EXPLANATION OF MILEAGE CHART

The distance between cities is shown at the intersection of the horizontal and vertical columns for each city. Mileages represent the approximate distance between cities via Interstate, US or marked highways.

FUTURE INTERSTATE 49

FUTURE 49 90

The future extension of I-49 to the south includes parts of US 167 and US 90 from the I-49/I-10 interchange in Lafayette to the I-10/US 90 Bus. interchange in downtown New Orleans. It is part of a larger plan for a transcontinental highway linking New Orleans and the coastal ports of Louisiana to Kansas City, Missouri via an interstate route that continues as I-29 to Canada.

The ACADIANA region is made up of twenty-two south Louisiana parishes unique primarily because of the strong French Acadian culture, language and traditions.

The FLORIDA PARISHES OF LOUISIANA region consists of eight south Louisiana parishes which were part of the British Colony of West Florida until 1779, the Spanish Colony of West Florida until 1810, and finally the Republic of West Florida in late 1810. It is now an official region of the State of Louisiana.
