Dear Contractor,

You are invited to learn about the On-The-Job (OJT) Training Program and how it can benefit your company, and your company's workforce. There will be a presentation providing an overall snapshot of what the OJT program is, showing the simple, easy steps it takes for your company to participate. Bring any and all questions, as the LA DOTD OJT Program "team" will be there, including our OJT Supportive Services Consultant to supply the answers.

*While it is suggested that the attendees be those persons who are responsible for payroll and/or training with the company, other company personnel are definitely encouraged to attend.
