

**ADDENDUM NUMBER 6  
INTERSTATE-10 WIDENING DESIGN-BUILD PROJECT  
SCOPE OF SERVICES PACKAGE**

SOSP Part	Section Number	
Instructions to Proposers	Section 1.13	<p><b>Revise as follows:</b></p> <p><b>1.13 ENVIRONMENTAL STATUS</b></p> <p><del>The RFP is being issued concurrently with development of the environmental documentation and acquisition of all environmental permits that may determine particular items within the final scope of services as well as many Project requirements. Any Work described herein is subject to adjustment as a result of the environmental documentation/permits and by other decision of the LA DOTD.</del></p> <p>Proposers are advised that the Project was cleared as a categorical exclusion in August 2009. <del>it is possible that the environmental approval process will result in a no-build alternative for the Project or an alignment that differs from the preferred alignment identified in the environmental documents. Although federal regulations permit a Contract to be awarded and preliminary design work to be performed before FHWA issues an environmental approval, nothing contained in this RFP or the Contract commits the LA DOTD or a proposer to the construction of the Project or any Project alternative unless an environmental approval is obtained (and then only to the extent set forth in the environmental approval).</del></p>
