1. **PURPOSE:** This directive is intended to establish deadlines for completion and approval of plans, proposals, cost estimates and all other necessary actions so the project bid package is available to bidders thirty (30) days prior to scheduled letting.

2. **SCOPE:** This directive covers all Federal-Aid and State construction projects that are handled in a routine manner. Large complex projects may require special handling and more time for completion.

3. **PROCEDURE:** Timetables (see Attachment Sheets 1-3) have been prepared for processing, taking into consideration Federal Aid projects (Department designed and consultant designed) and State Projects (Department design and consultant designed).

4. **IMPLEMENTATION:** The implementation of this directive will be the responsibility of the Director of Planning and Design and all section heads involved in the preparation and review process. Each section head is expected to comply with these timetables to the greatest extent possible.

5. **OTHER ISSUANCES AFFECTED:** EDSM No. I.1.1.3, dated July 24, 1984, and all other directives, memoranda or instructions issued heretofore in conflict with this directive are hereby rescinded.

6. **EFFECTIVE DATE:** This directive will become effective immediately.
