

## **LIQUID ASPHALT**

Liquid Asphalt samples, including CRS-2P Emulsified Polymerized Asphalt, EPR-1 Cationic Emulsified Petroleum Resin, and AEP Emulsified Asphalt are submitted on DOTD 03-22-0800, Sample Identification Form, which is discussed in detail in the Sample Identification portion of this manual. The appropriate Liquid Asphalt worksheet is completed by the tester in the laboratory.

Liquid Asphalt Material Codes are located in the Material Codes portion of this manual.

Liquid Asphalt Source Codes are located in the QPL Codes portion of this manual under QPL 41.

Standard unit for reporting Liquid Asphalt quantity is GALLONS.
