

When rumbles are used on the roadway section, non-reflectORIZED raised pavement marker rumbles are to be used on the approach slabs and bridges, as applicable. The centerline markers are to be spaced in a single line at 14" o.c. and between the reflectORIZED markers shown on PM Std Plans. The shoulder markers are to be spaced in a single line at 14" o.c. and have the bicycle gaps, as applicable.

**RAISED PAVEMENT MARKER RUMBLES**
