LADOTD Statewide Traffic Engineers Meeting

June 26, 2012

Traffic Signal Timing Studies

Nick J. Ferlito, Jr., P.E., PTOE
Neel-Schaffer, Inc.

NEEL-SCHAFFER
Solutions you can build upon

LADOTD State Projects / Task Order Based

State Project No. 700-99-0447 – Statewide
Retainer Contract for Traffic Signal Studies & Design

State Project No. 700-99-0546 – Districts 61, 62 & 02
Retainer Contract for Signal Timing Studies

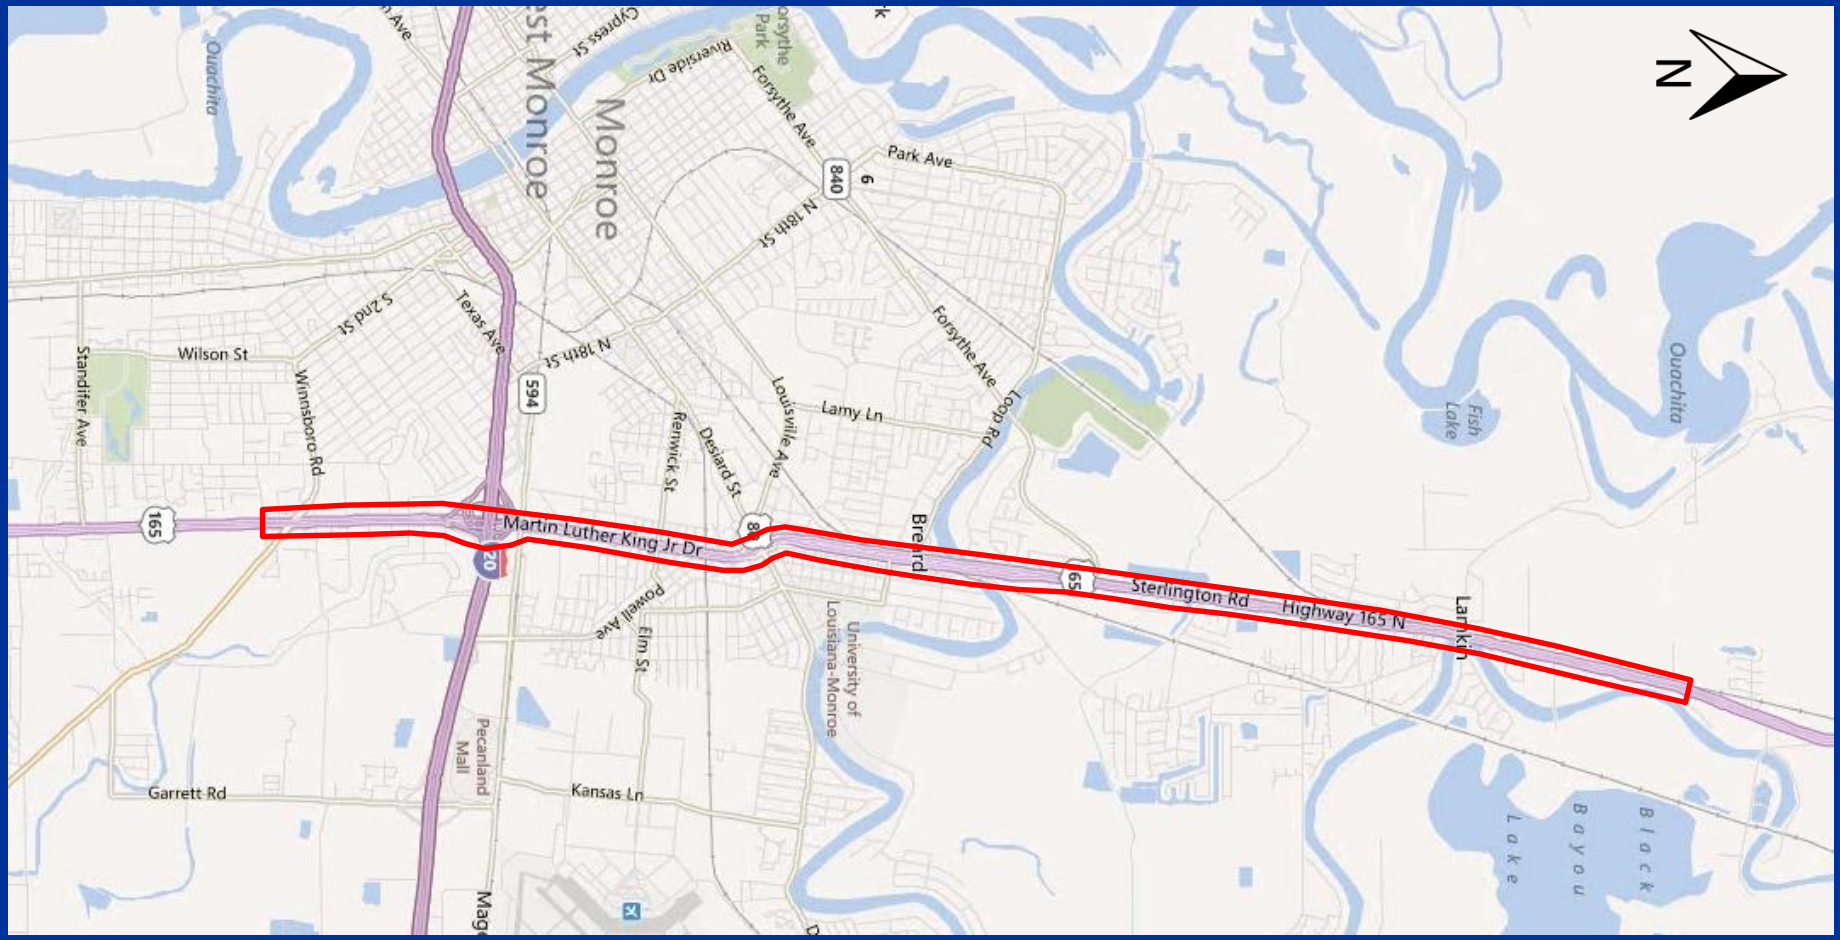
State Project No. 700-99-0542 – Districts 03, 04, 05, 07, 08 & 58
Retainer Contract for Signal Timing Studies

NEEL-SCHAFFER
Solutions you can build upon

State Project No. 700-99-0447 – Statewide

1. Task Order No. 701-65-1275

US 165, Monroe, LA (18 intersections), (LA 15 to CenturyTel)



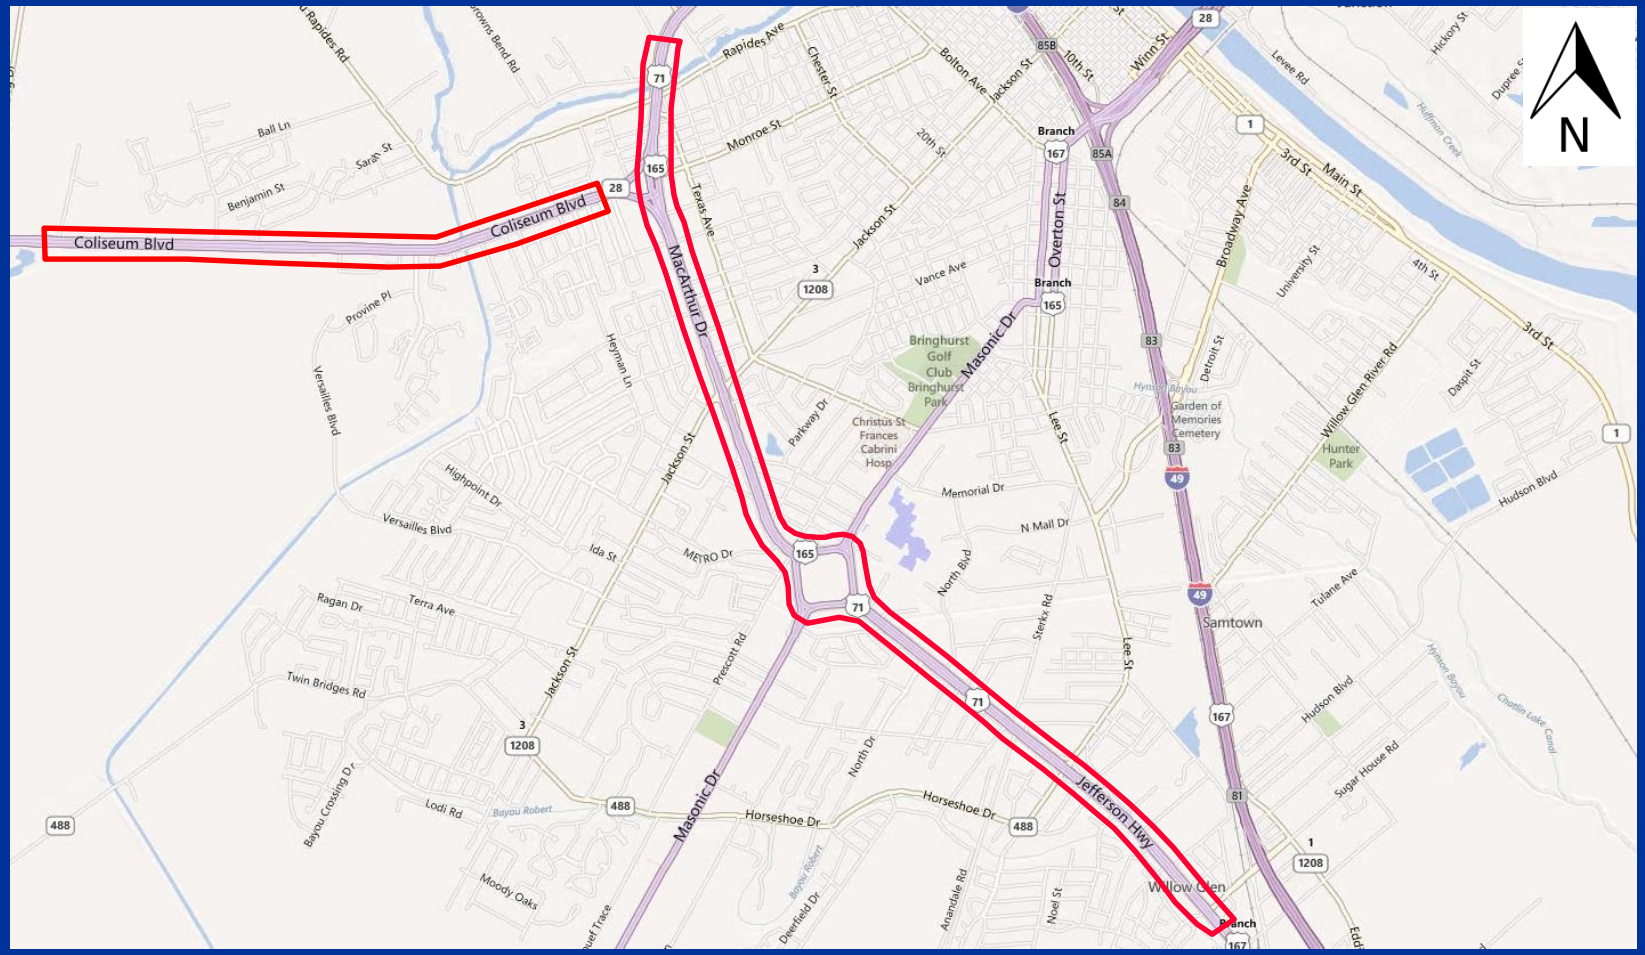
NEEL-SCHAFFER

Solutions you can build upon

State Project No. 700-99-0447 – Statewide

2. Task Order No. 701-65-1466

US 71, Alexandria, LA (9 intersections), (Bayou Rapides Ave to LA 3250)
LA 28, Alexandria, LA (4 intersections), (US 71/US 165 to Wal-Mart)

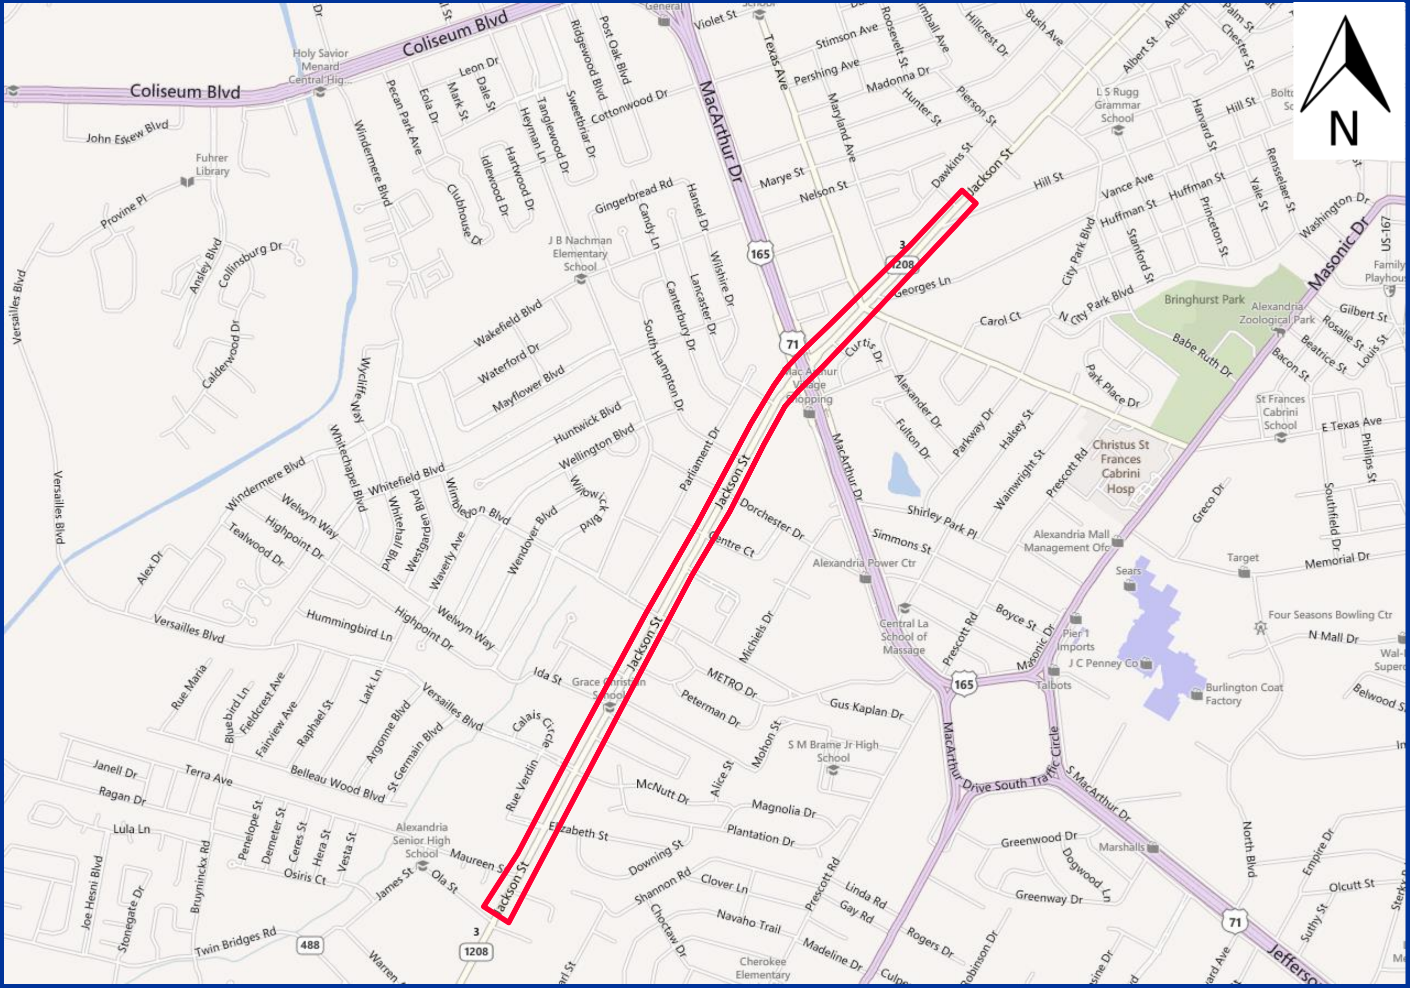


NEEL-SCHAFFER
Solutions you can build upon

State Project No. 700-99-0447 – Statewide

3. Task Order No. H.005746

LA 1208-3, Alexandria, LA (11 intersections), (Hill St. to Maureen St.)

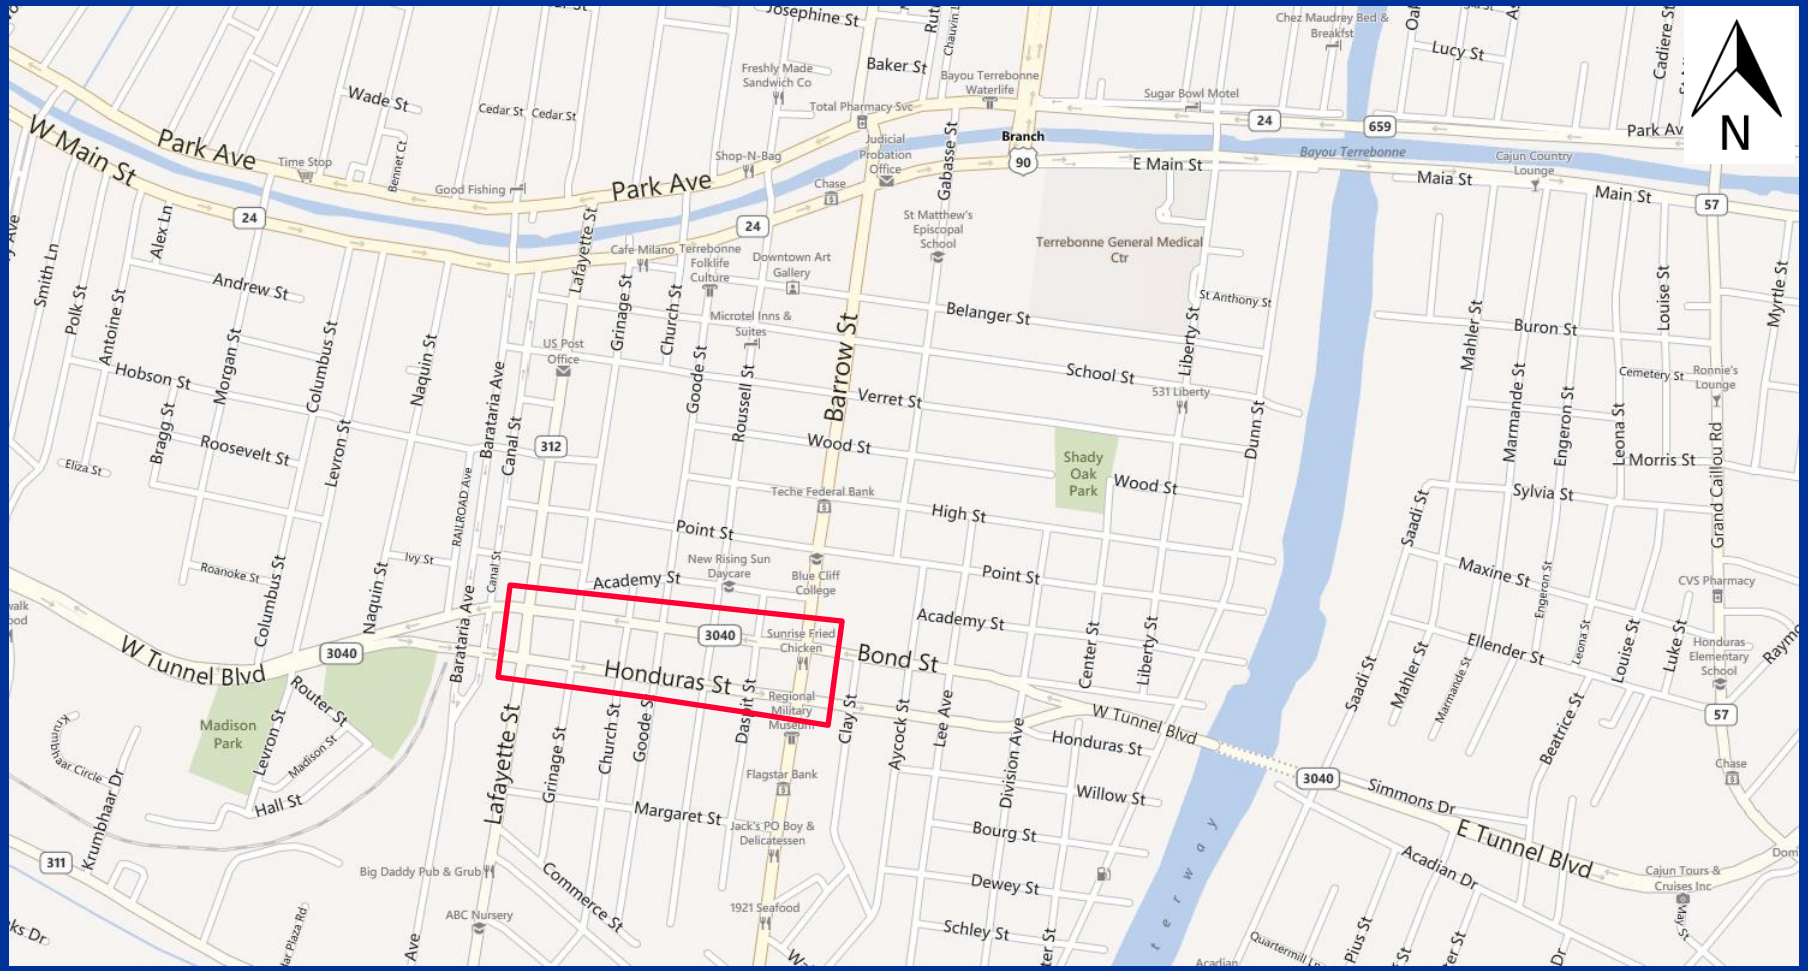


NEEL-SCHAFFER
Solutions you can build upon

State Project No. 700-99-0546 – Districts 61, 62 & 02

1. Task Order No. H.005750

LA 3040, Houma, LA (7 intersections), (LA 182 to LA 312)



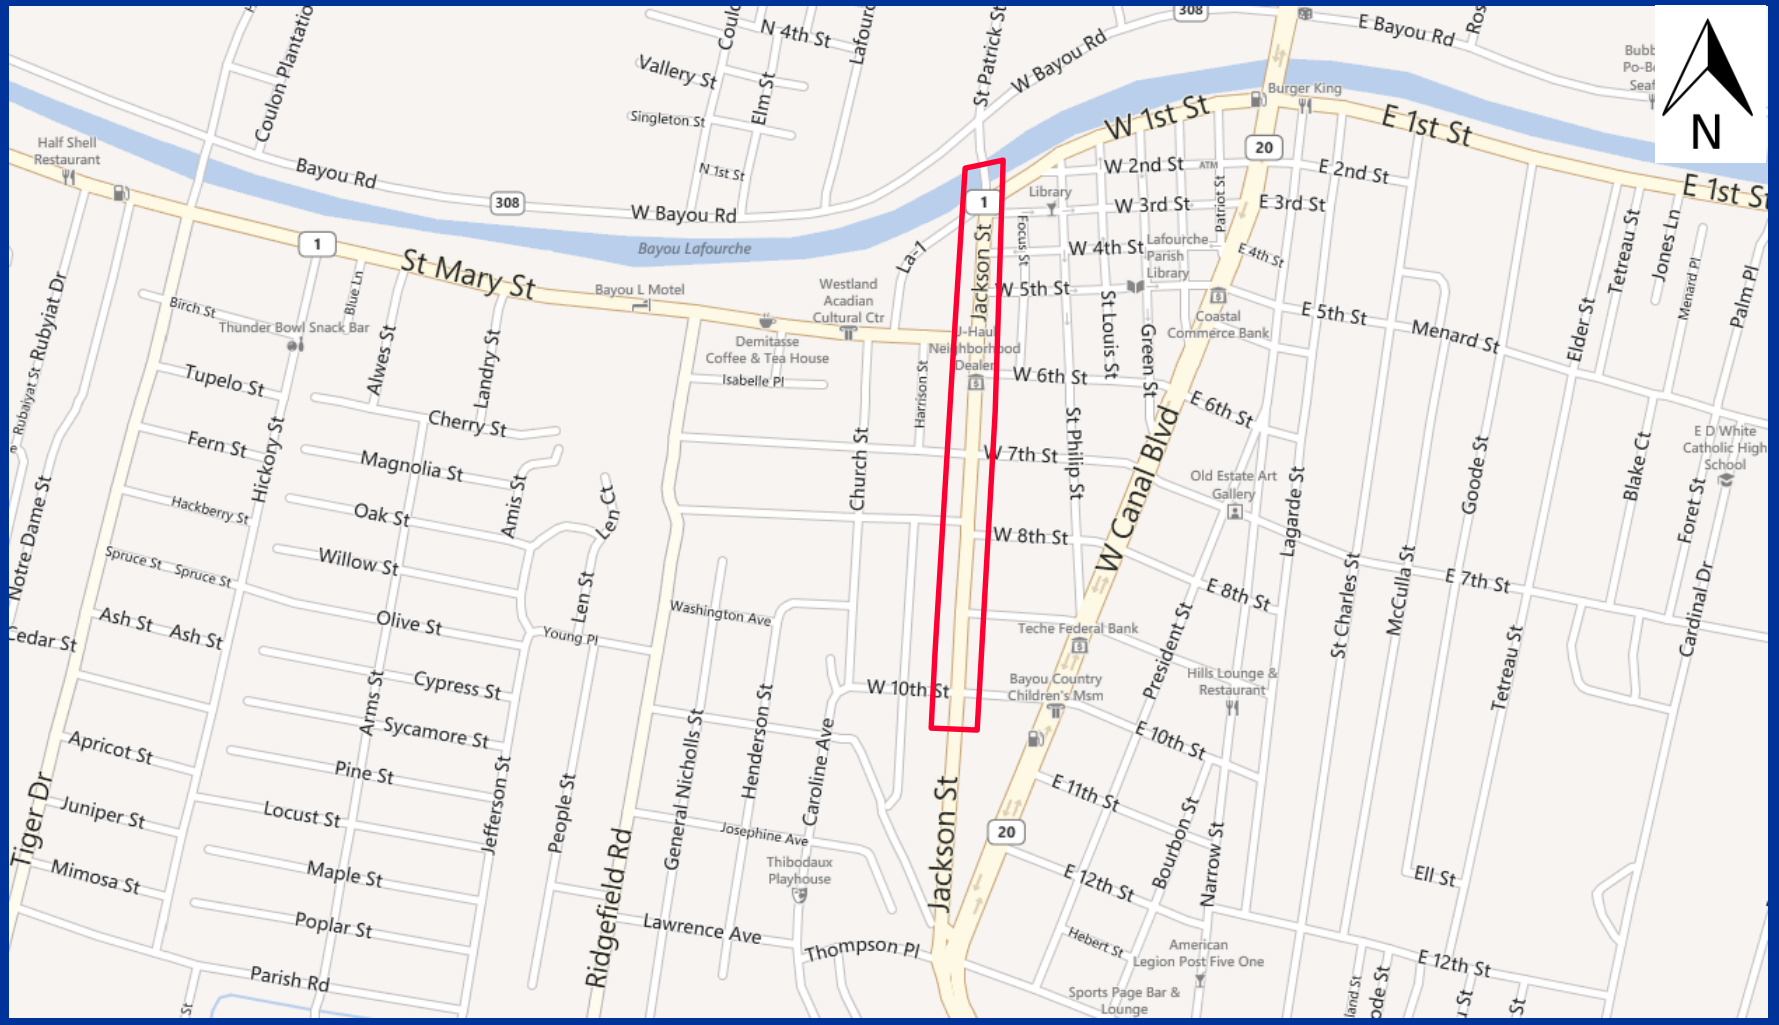
NEEL-SCHAFFER

Solutions you can build upon

State Project No. 700-99-0546 – Districts 61, 62 & 02

1. Task Order No. H.005750

LA 20, Thibodaux, LA (5 intersections), (W. 10th St. to LA 1)



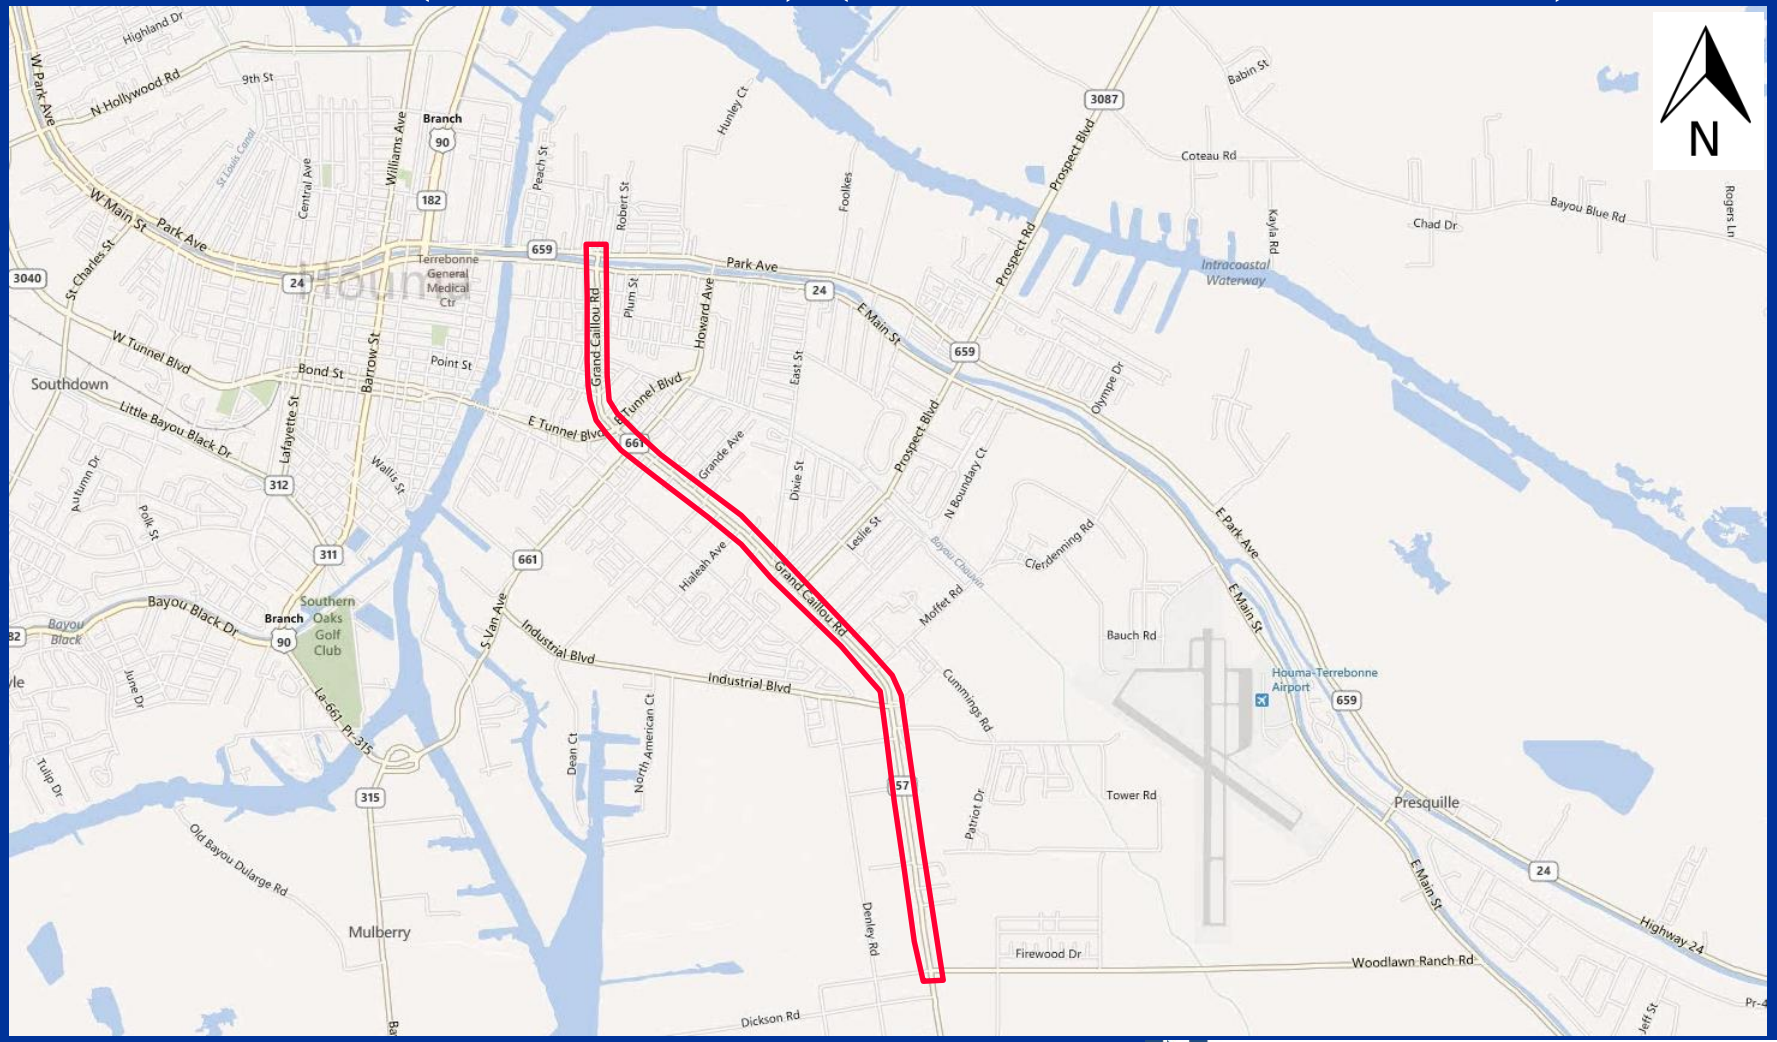
NEEL-SCHAFFER

Solutions you can build upon

State Project No. 700-99-0546 – Districts 61, 62 & 02

1. Task Order No. H.005750

LA 57, Houma, LA (13 intersections), (LA 24 to Woodlawn Ranch Rd.)



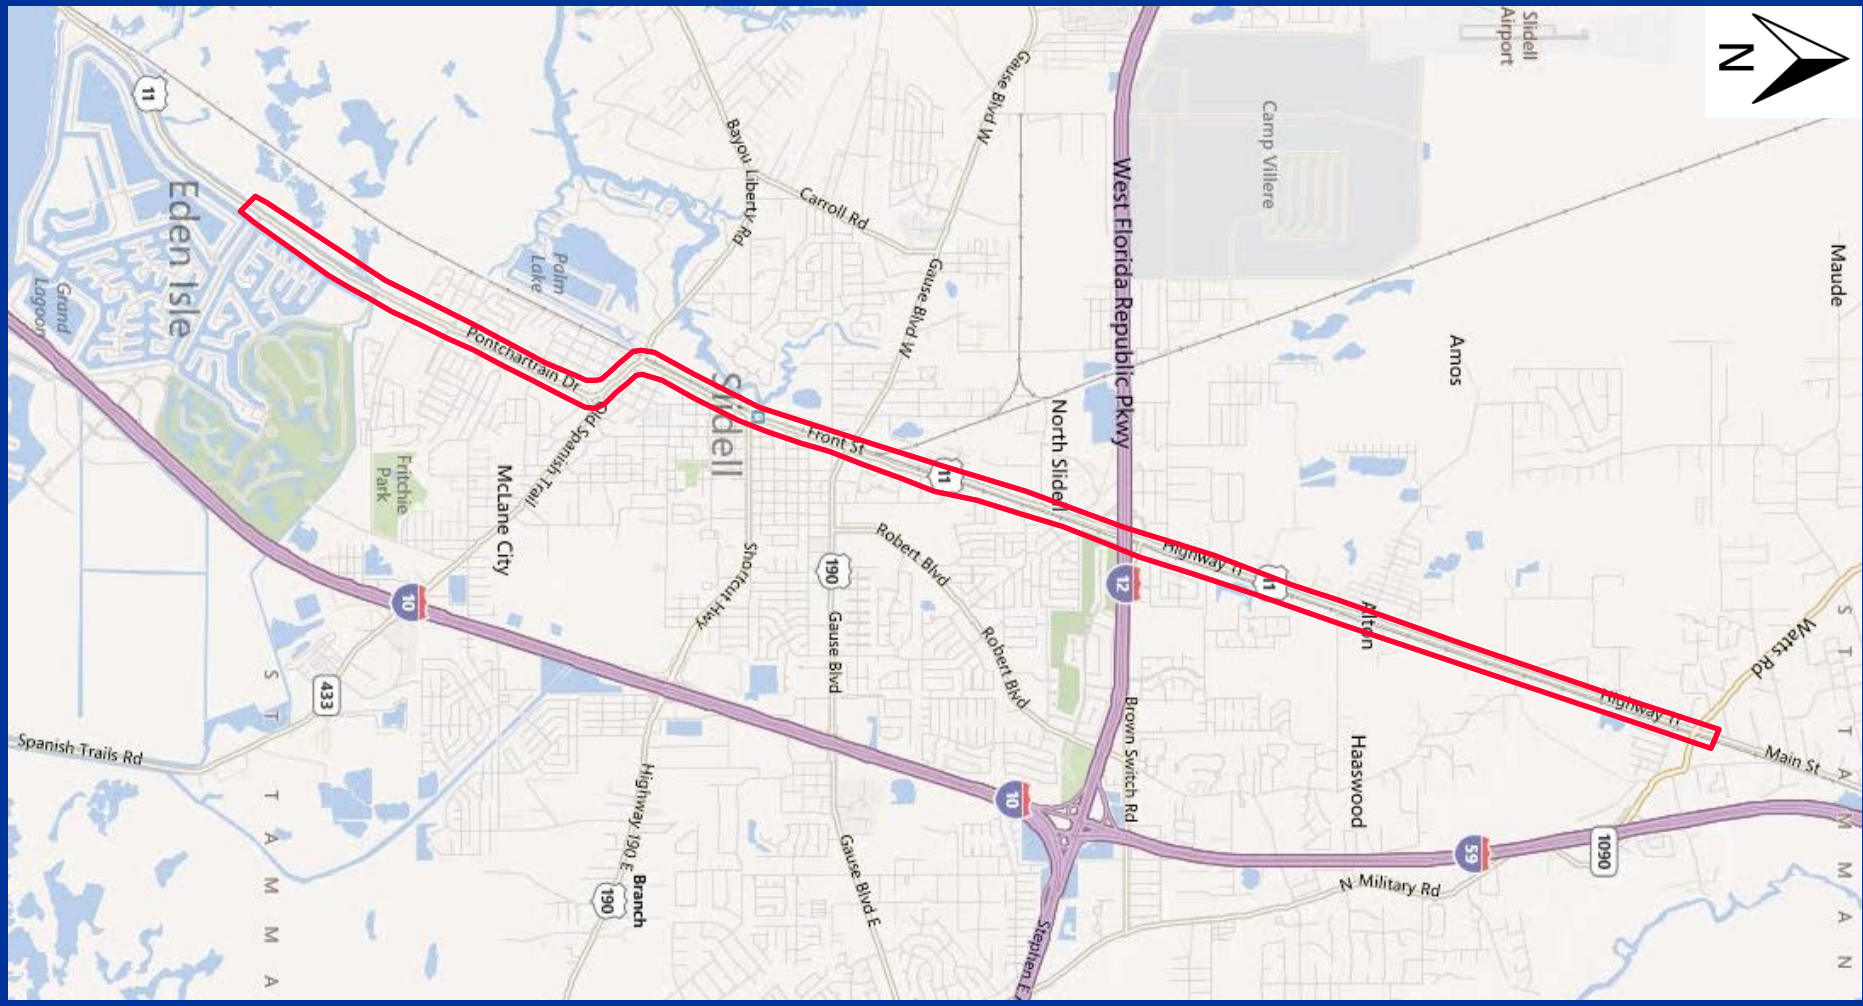
NEEL-SCHAFFER

Solutions you can build upon

State Project No. 700-99-0546 – Districts 61, 62 & 02

2. Task Order No. H.005757.5

US 11, Slidell, LA (17 intersections), (Eden Isles Blvd. to LA 41/LA 3081)



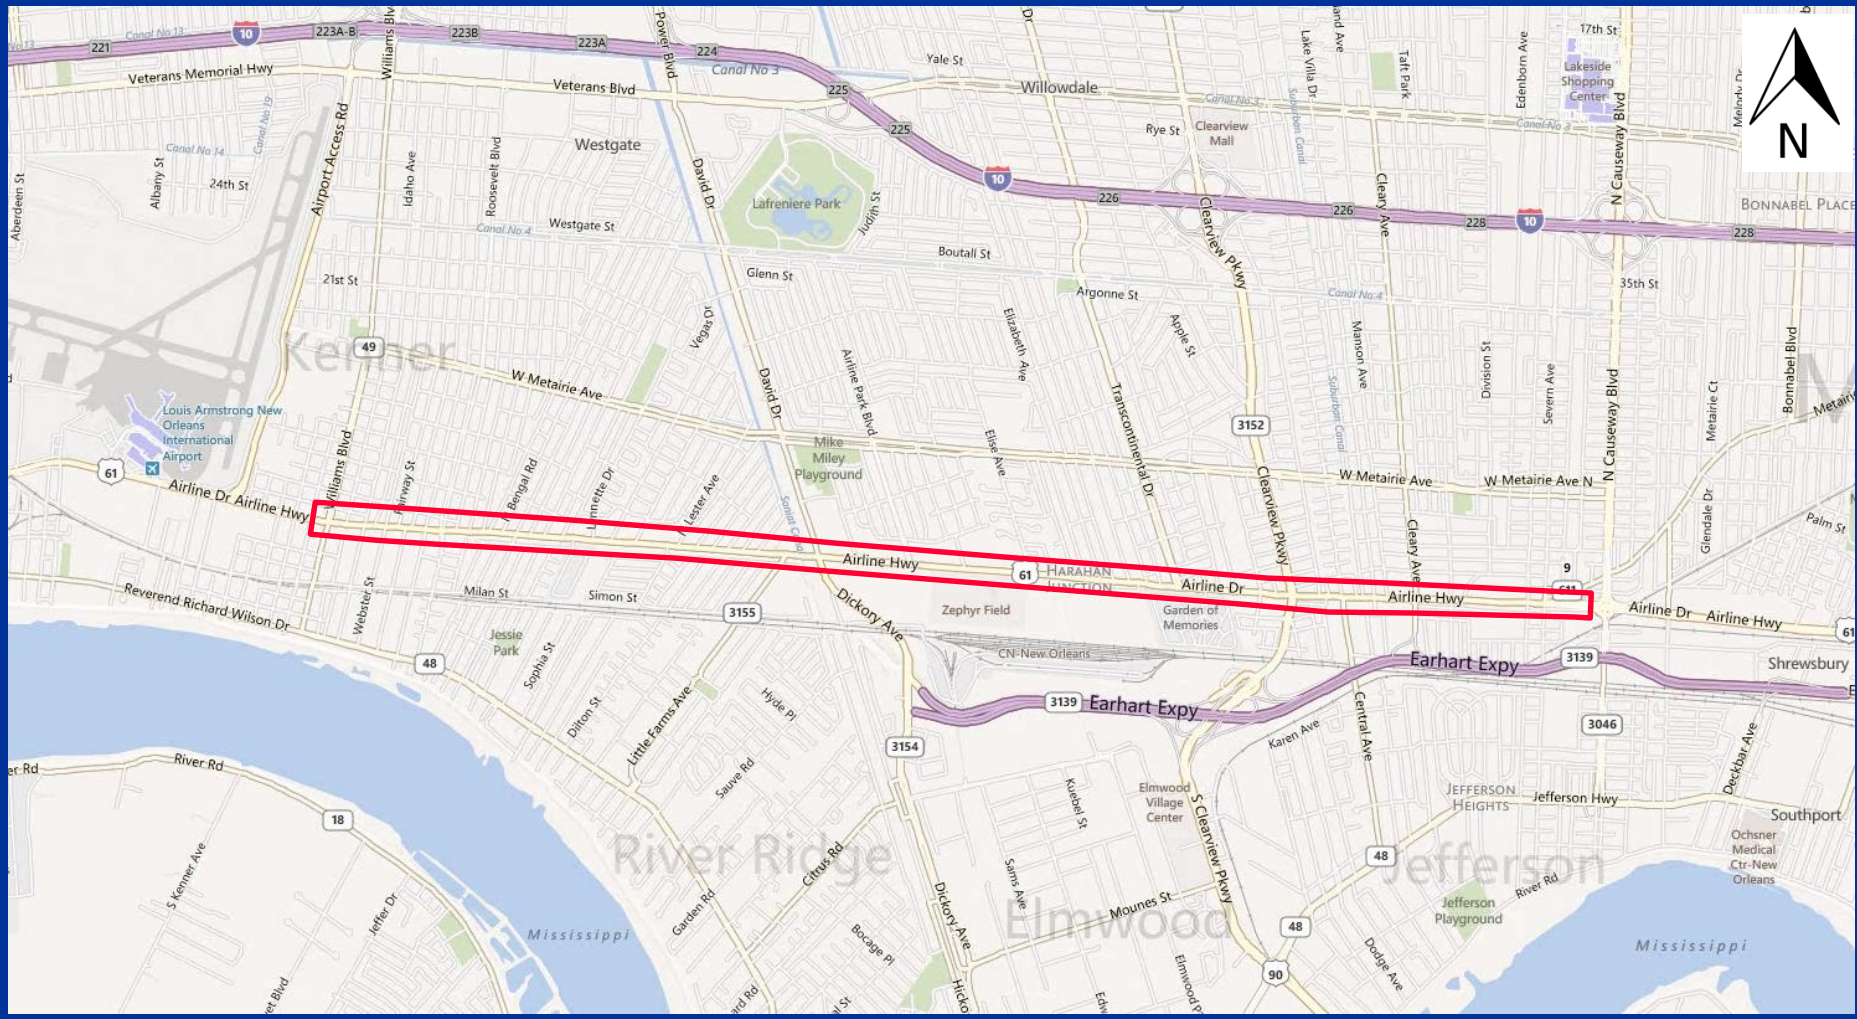
NEEL-SCHAFFER

Solutions you can build upon

State Project No. 700-99-0546 – Districts 61, 62 & 02

3. Task Order No. H.005760

US 61, New Orleans, LA (20 intersections), (Williams Blvd. to Severn Ave.)



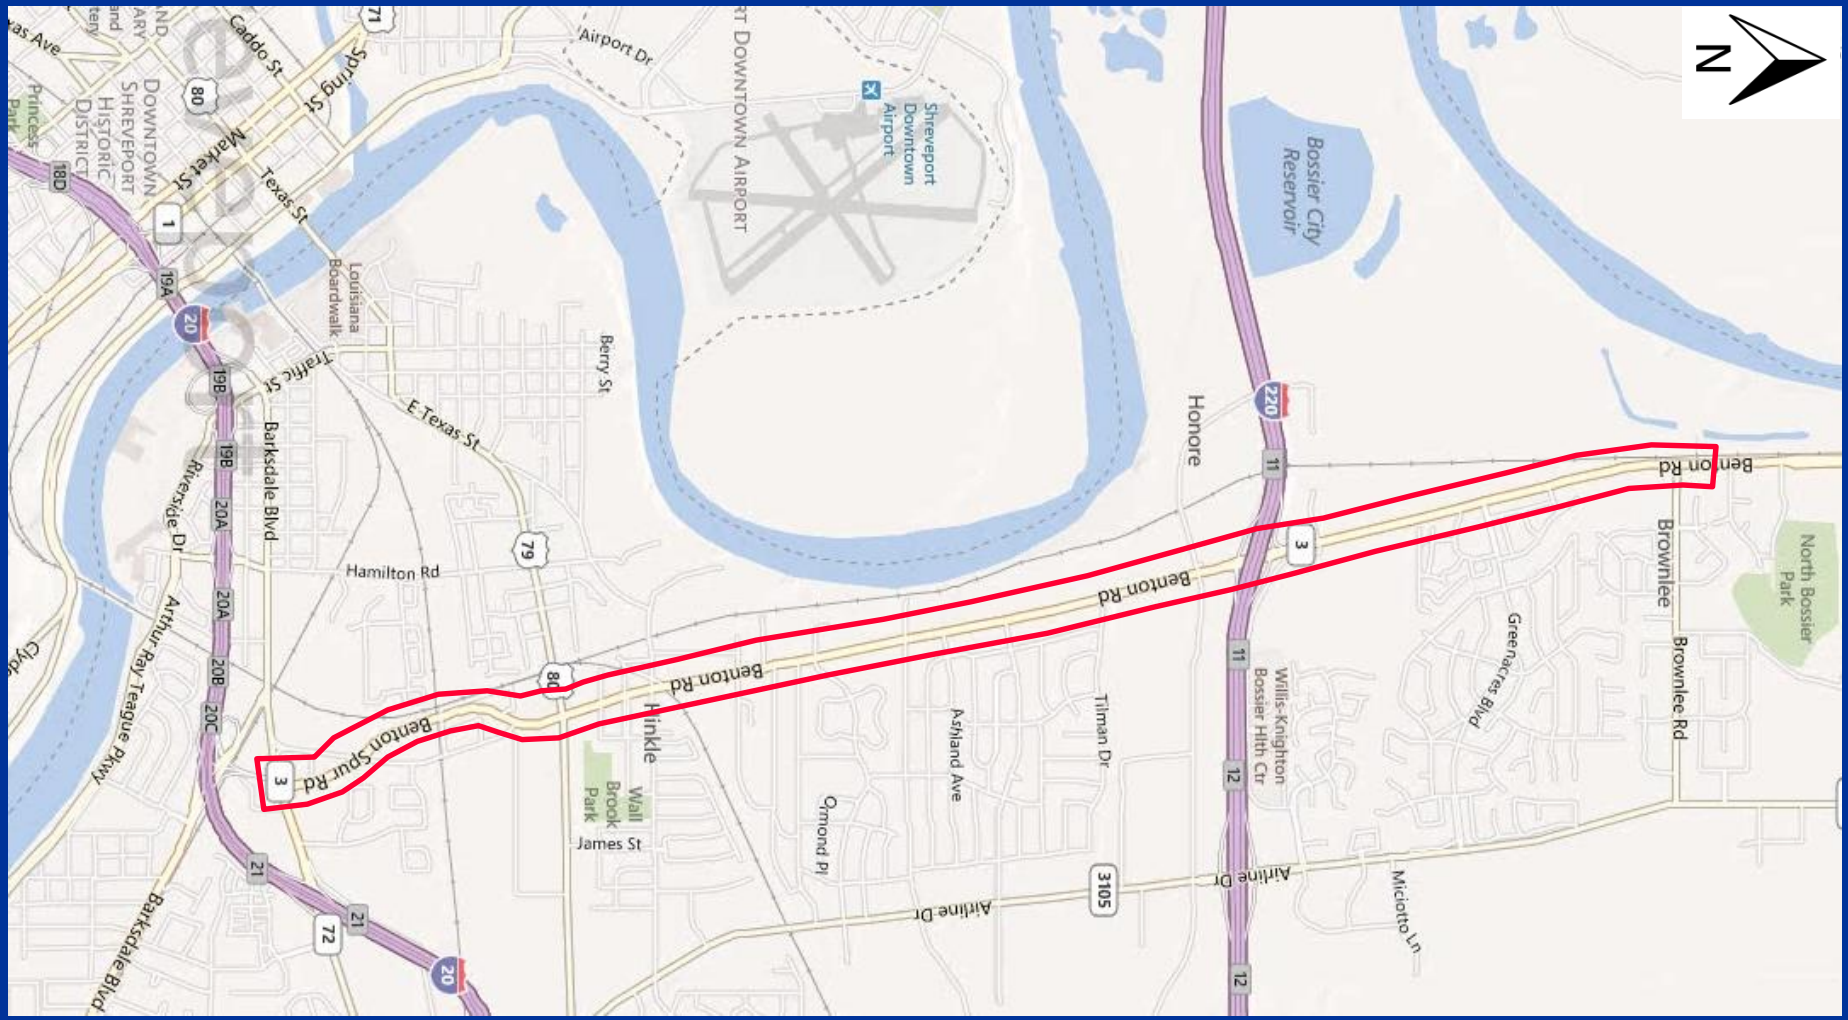
NEEL-SCHAFFER

Solutions you can build upon

State Project No. 700-99-0542 – Districts 03, 04, 05, 07, 08 & 58

1. Task Order No. H.005756.5

LA 3, Bossier City, LA (11 intersections), (Brownlee Rd. to Old Minden Hwy.)

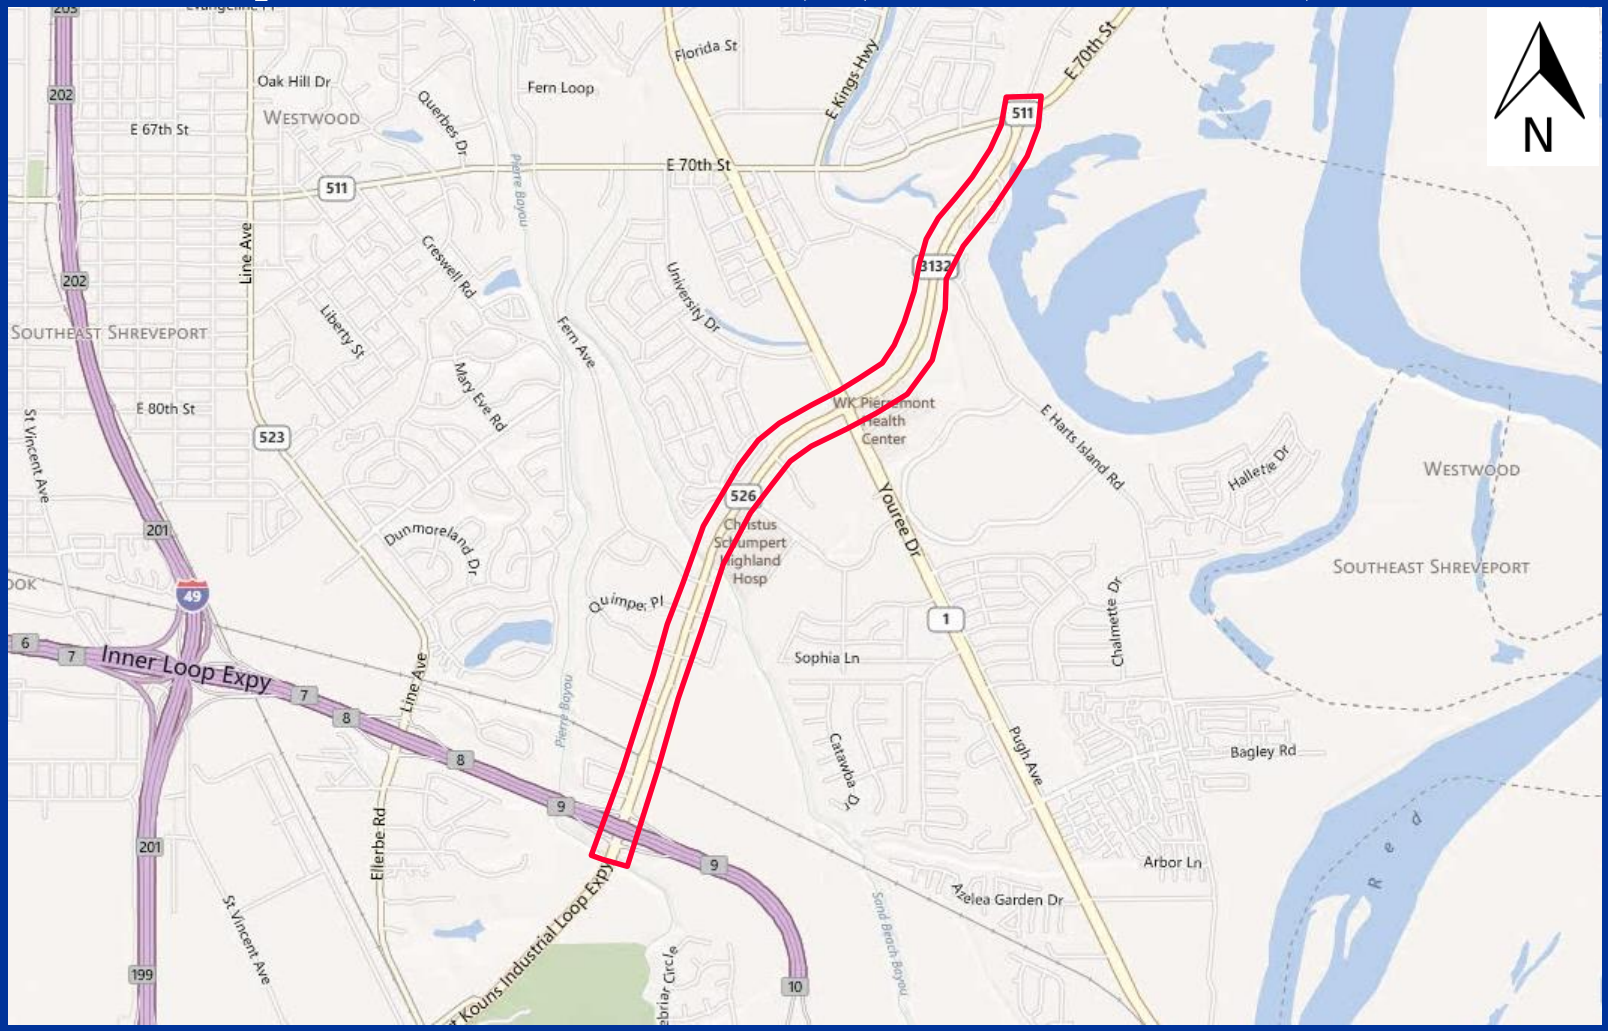


NEEL-SCHAFFER
Solutions you can build upon

State Project No. 700-99-0542 – Districts 03, 04, 05, 07, 08 & 58

1. Task Order No. H.005756.5

LA 526, Shreveport, LA (8 intersections), (LA 511 to LA 3132)



NEEL-SCHAFFER

Solutions you can build upon

Signal Timing Studies
Scope of Work

Task 1.0	Project Management
Task 2.0	Initial Data Collection
Task 3.0	Final Data Collection
Task 4.0	New Proposed TSIs
Task 5.0	Programming Controllers

Task 1.0 – Project Management

- Attend kickoff meeting
- Prepare kickoff meeting minutes
- Develop project schedule
- Develop monthly progress report
- Update project schedule monthly

NEEL-SCHAFFER
Solutions you can build upon

Task 2.0 – Initial Data Collection

- 7-day, 24 hour approach traffic counts, 15 min. intervals
- Intersection / Controller inventories

NEEL-SCHAFFER
Solutions you can build upon

SIGNALIZED INTERSECTION INSPECTION

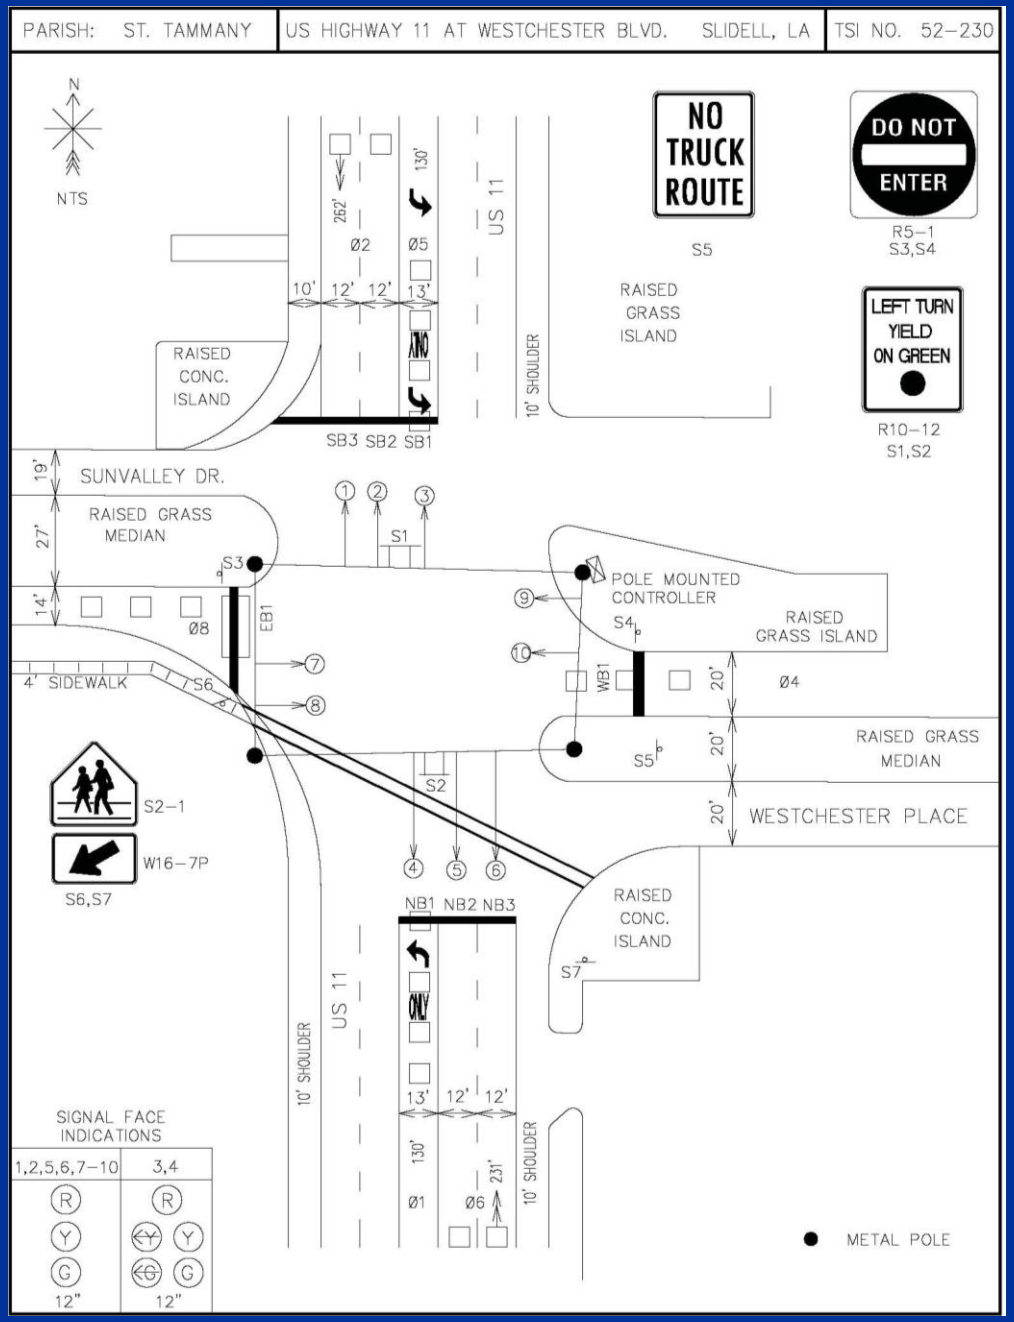
Task 2.0 – Initial Data Collection

- 7-day, 24 hour approach traffic counts, 15 min. intervals
- Intersection / Controller inventories
- Intersection layouts in Microstation

NEEL-SCHAFFER
Solutions you can build upon



NEEL-SCHAFFER
Solutions you can build upon

Task 2.0 – Initial Data Collection

- 7-day, 24 hour approach traffic counts, 15 min. intervals
- Intersection / Controller inventories
- Intersection layouts in Microstation
- Crash summary and/or collision diagram (if required)
- Warrants analysis
- Determination of peak periods for TMCs, travel time runs and peak hour observations

	TUE	WED	THU
AM Peak	07:00 AM,	07:30 AM,	07:15 AM
Noon Peak	11:30 AM,	11:30 AM,	11:30 AM
PM Peak	04:30 PM,	04:30 PM,	04:30 PM

NEEL-SCHAFFER
Solutions you can build upon

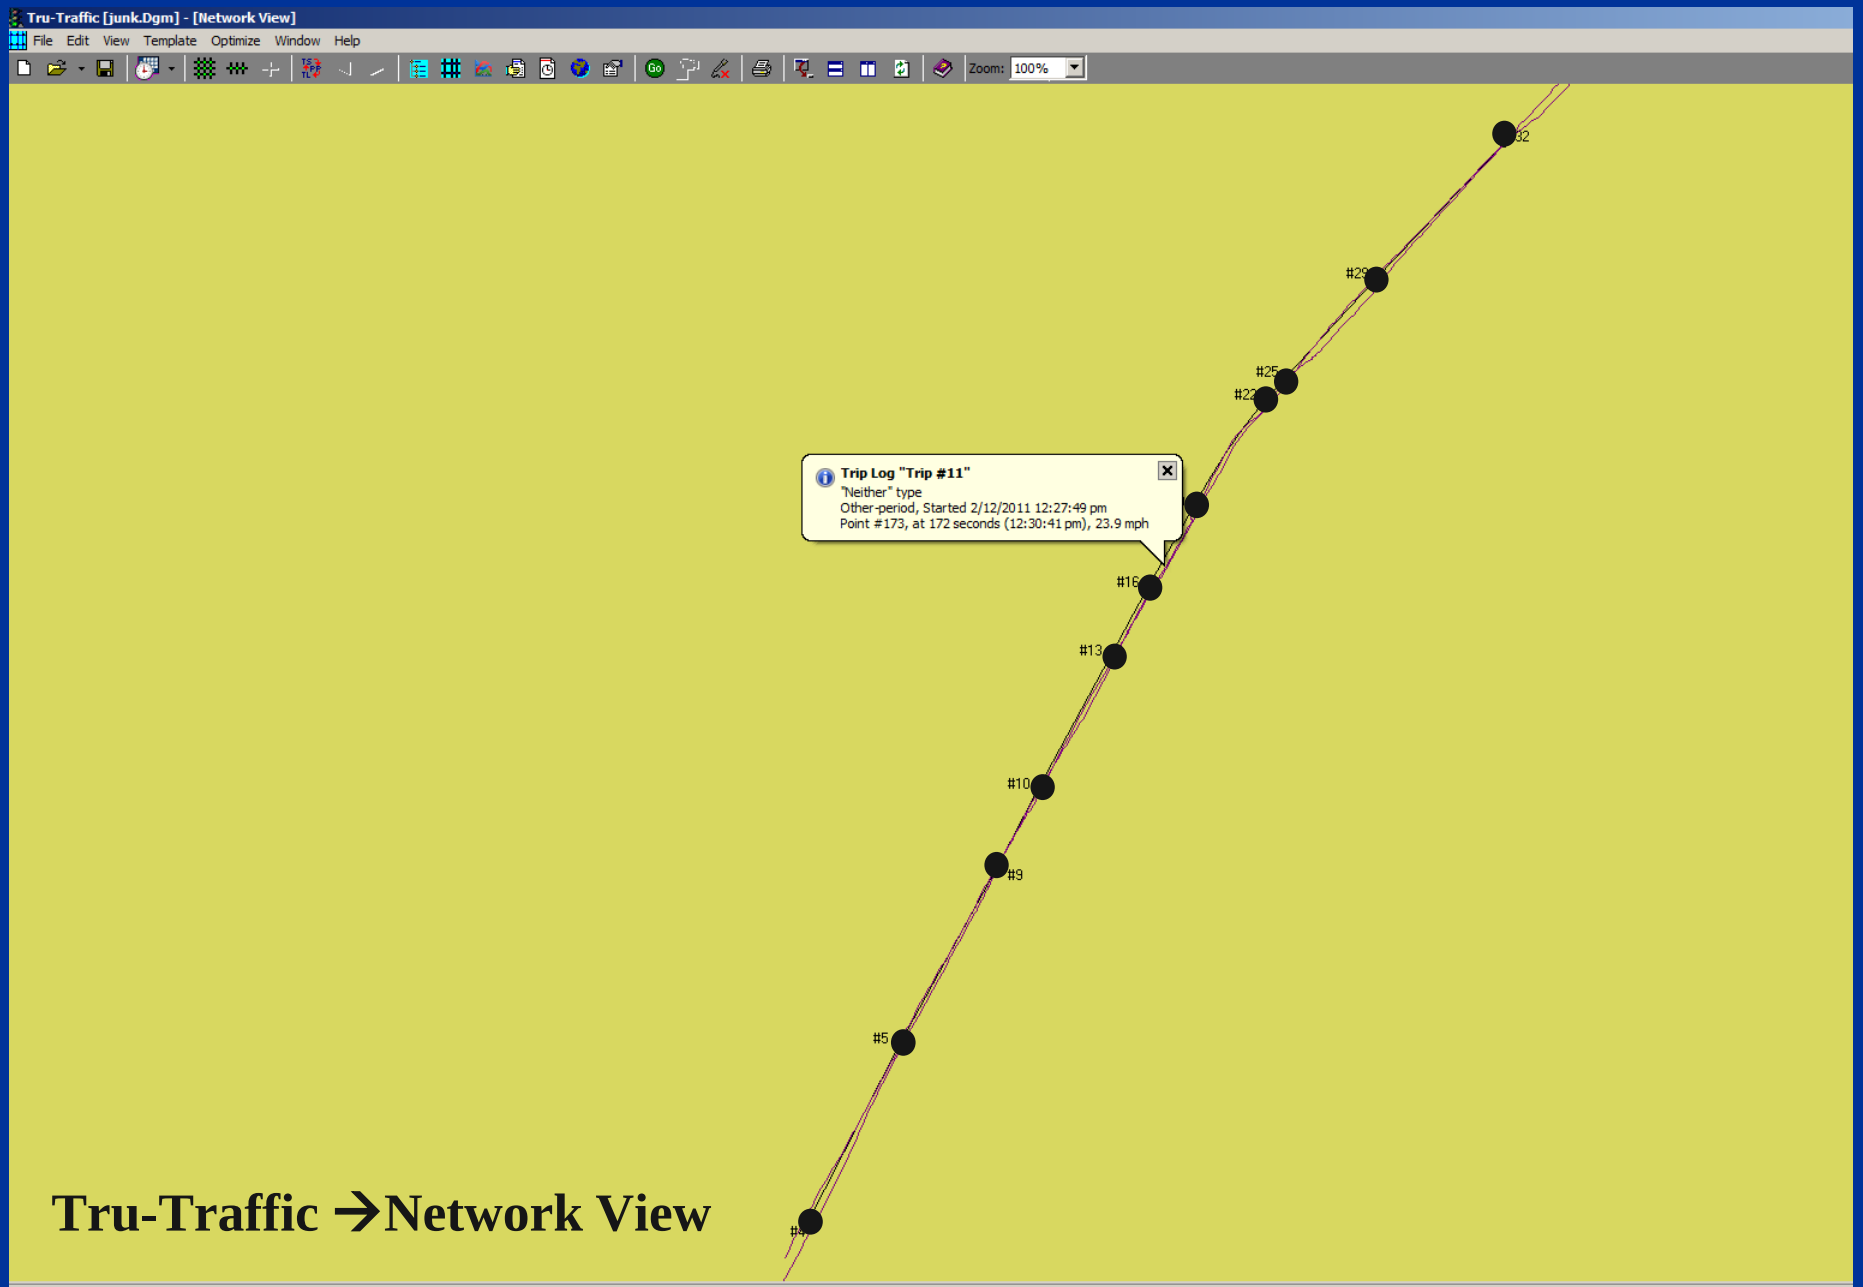
Task 2.0 – Initial Data Collection

- 7-day, 24 hour approach traffic counts, 15 min. intervals
- Intersection / Controller inventories
- Intersection layouts in Microstation
- Crash summary and/or collision diagram (if required)
- Warrants analysis
- Determination of peak periods for TMCs, travel time runs and peak hour observations
- Submittal of Initial Data Collection Report
- Attend Initial Data Collection Meeting
- Prepare minutes

NEEL-SCHAFFER
Solutions you can build upon

Task 3.0 – Final Data Collection

- Perform peak hour TMCs, 15 minute intervals w/queue lengths
- Perform peak hour observations
- Perform peak hour travel time runs using GPS and Tru-Traffic



Tru-Traffic →Network View

Task 3.0 – Final Data Collection

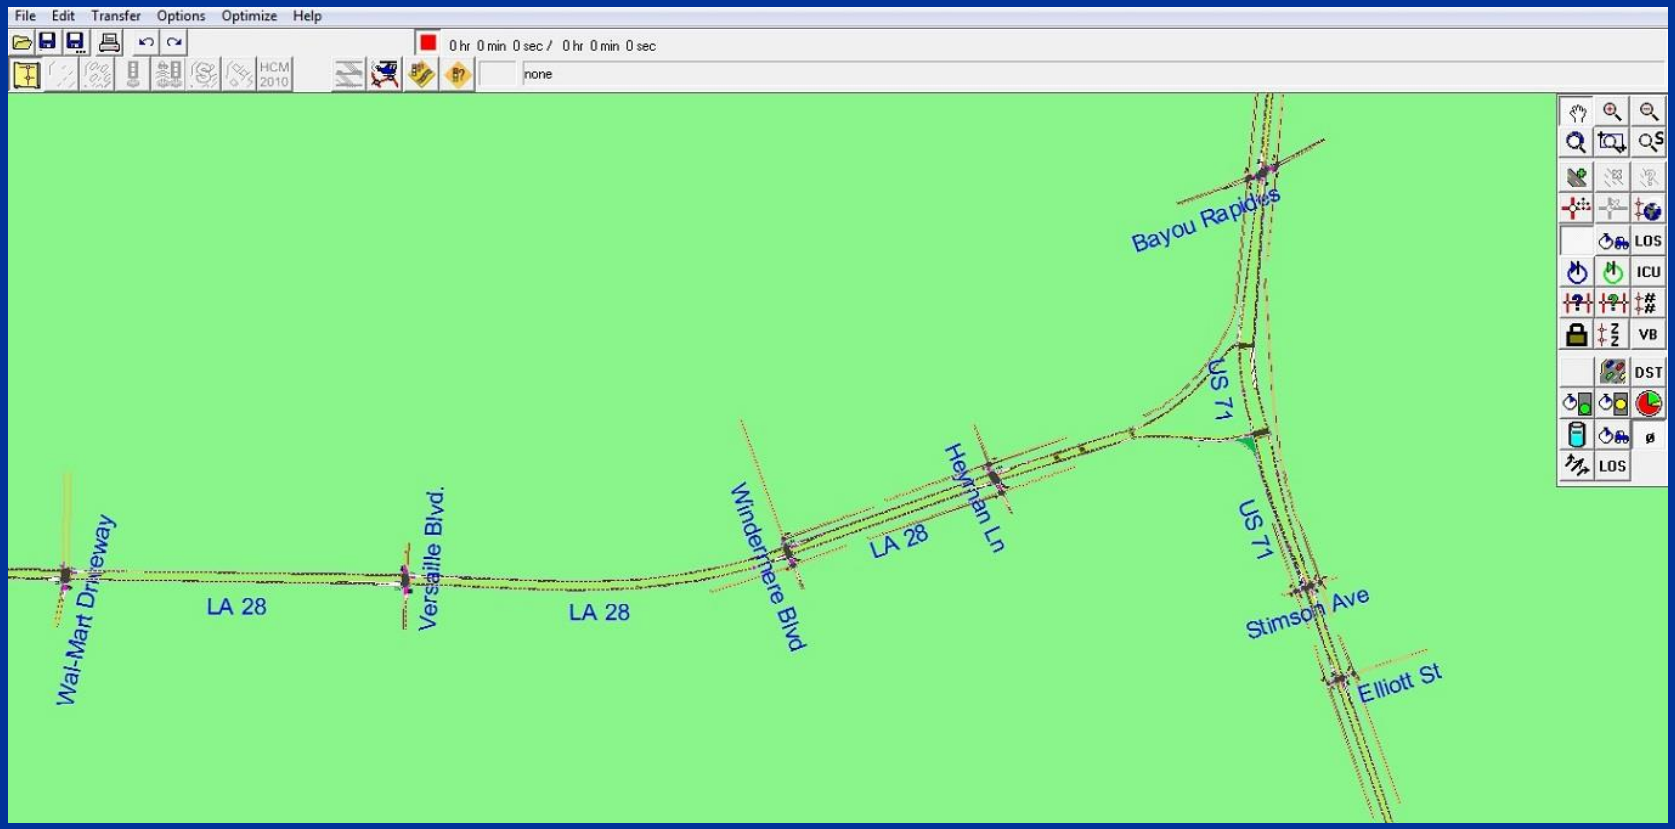
- Perform peak hour TMCs, 15 minute intervals w/queue lengths
- Perform peak hour observations
- Perform peak hour travel time runs using GPS and TRU-TRAFFIC
- Perform clearance interval calculations
- Submittal of Final Data Collection Report
- Attend Final Data Collection Meeting
- Prepare meeting minutes

NEEL-SCHAFFER
Solutions you can build upon

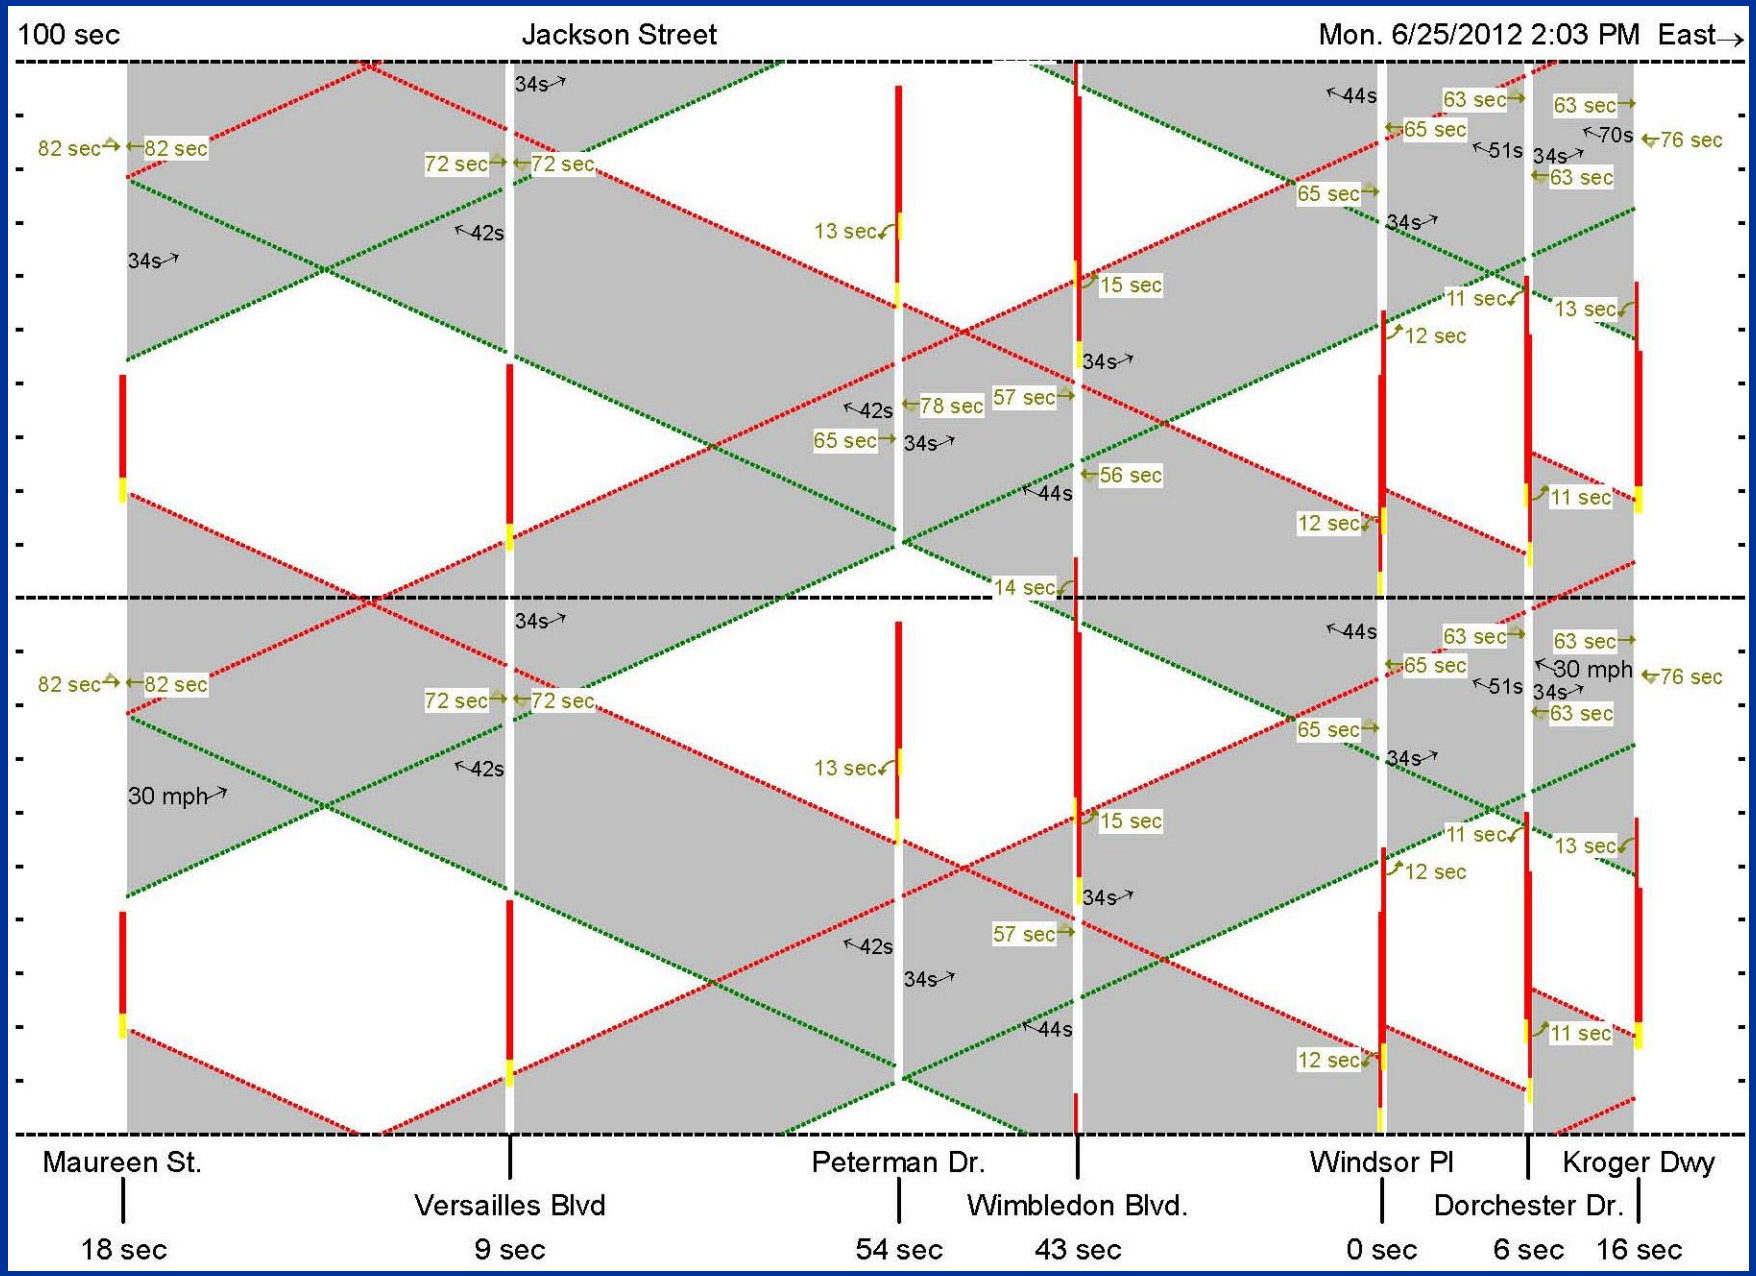
Task 4.0 – New Proposed TSIs

- Develop Synchro models for existing peak hour conditions (existing geometry, signal timing, and peak hour volumes).
- Calibrate existing Synchro models based on the travel time runs collected in Task 3.0.
- Develop Synchro models for recommended signal timings.
  - Coordinated Systems / Subsystems
  - Cycle Lengths
  - Signal Phasing
  - Phase Spits
  - Offsets

Synchro Network Example

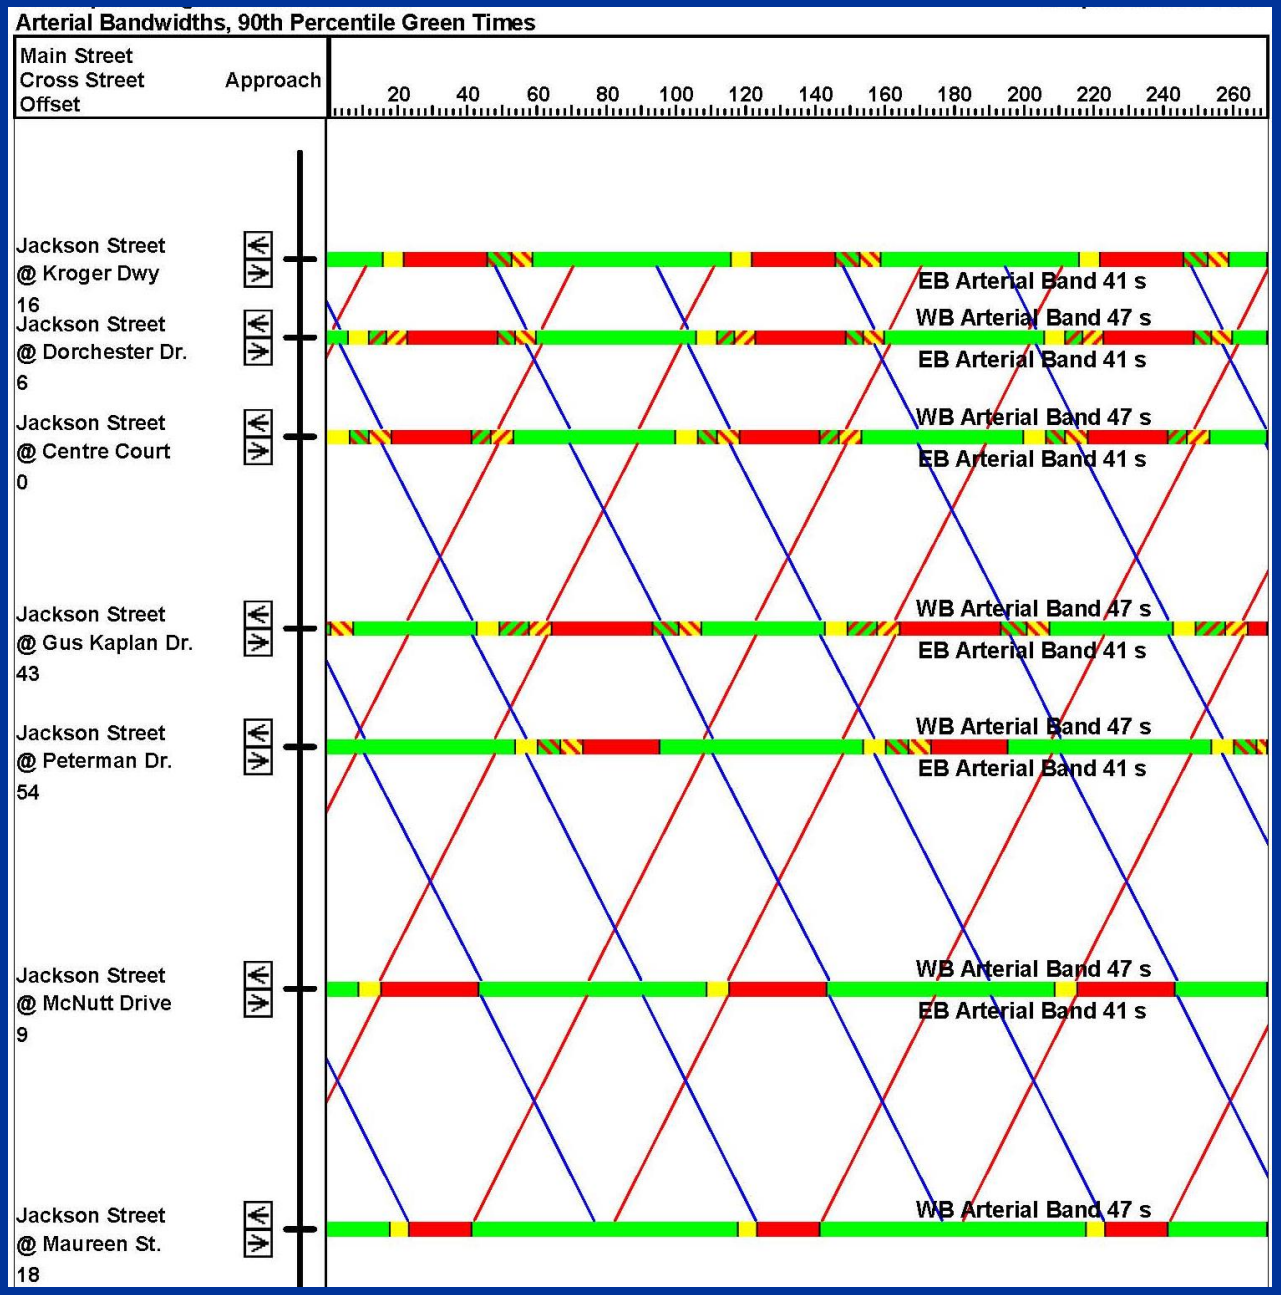


NEEL-SCHAFFER
Solutions you can build upon



Tru-Traffic → Time-Space Diagram

NEEL-SCHAFFER
Solutions you can build upon



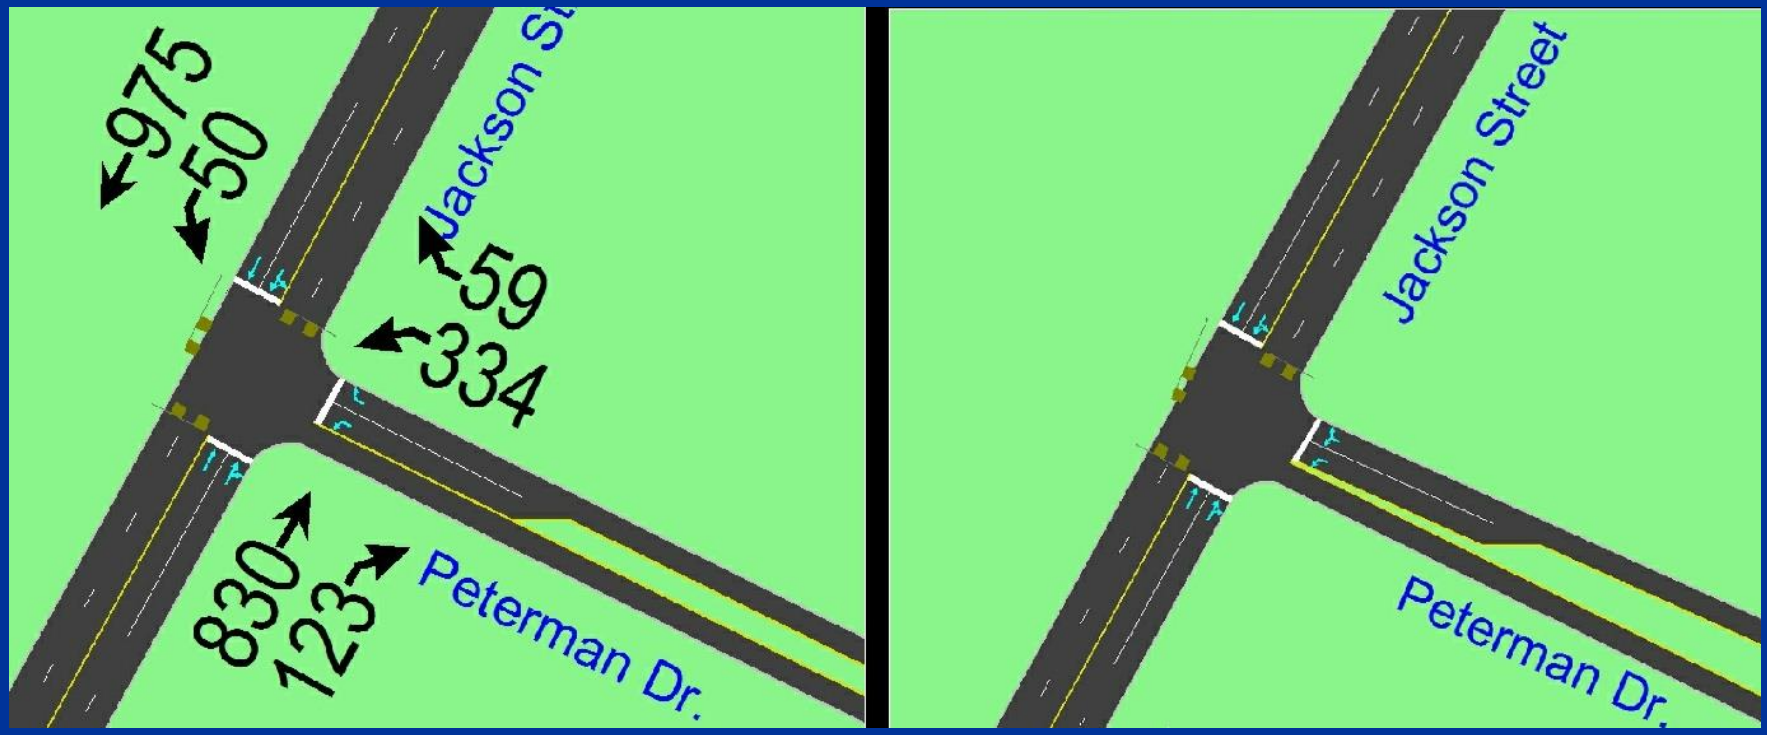
Synchro → Time-Space Diagram

NEEL-SCHAFFER
Solutions you can build upon

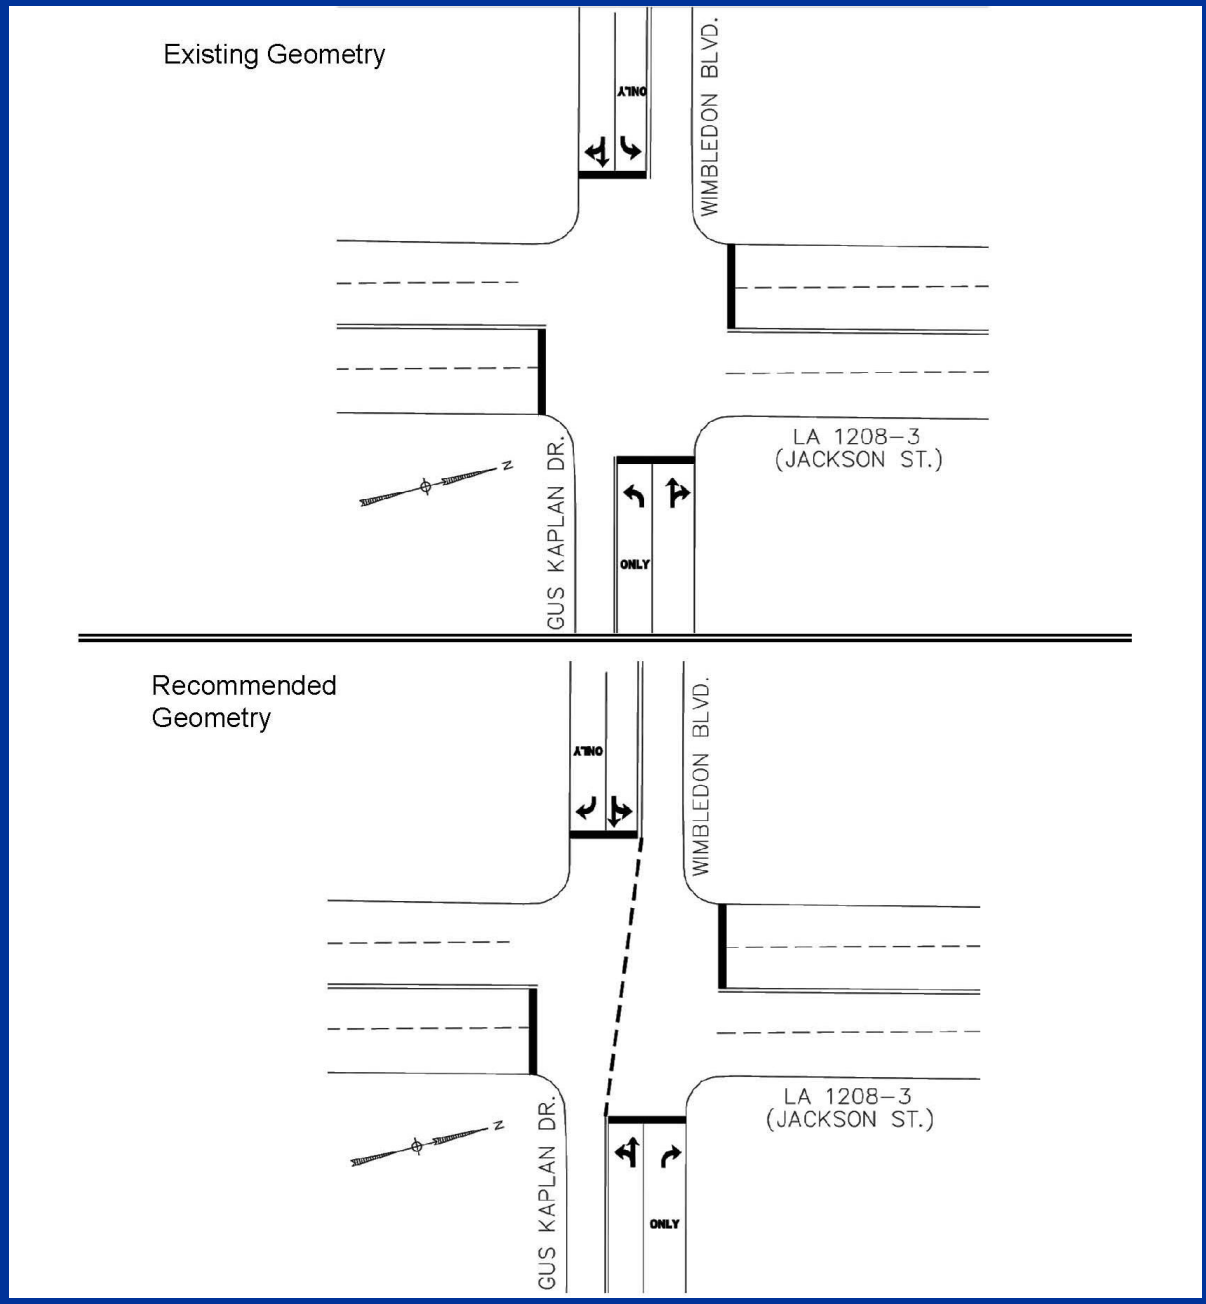
Task 4.0 – New Proposed TSIs Cont'd.

- Provide recommendations on striping/lane use changes, signal equipment upgrades and geometric improvements.

Proposed Lane Use / Striping Change Examples



NEEL-SCHAFFER
Solutions you can build upon



NEEL-SCHAFFER
Solutions you can build upon

Task 4.0 – New Proposed TSIs Cont'd.

- Provide recommendations on striping/lane use changes, signal equipment upgrades and geometric improvements.
- Submittal of Recommend Signal Timing Report
  - New TSIs with recommend signal timing plans
  - Comparison of existing and proposed LOS/Delay for all peaks.
  - Comparison of existing and proposed travel times for all peaks.
  - Summary of all signal equipment upgrade recommendations.
  - Summary of all striping/lane use recommended changes.
  - Summary of all geometric recommendations.
- Attend Recommended Signal Timing Meeting
- Prepare meeting minutes

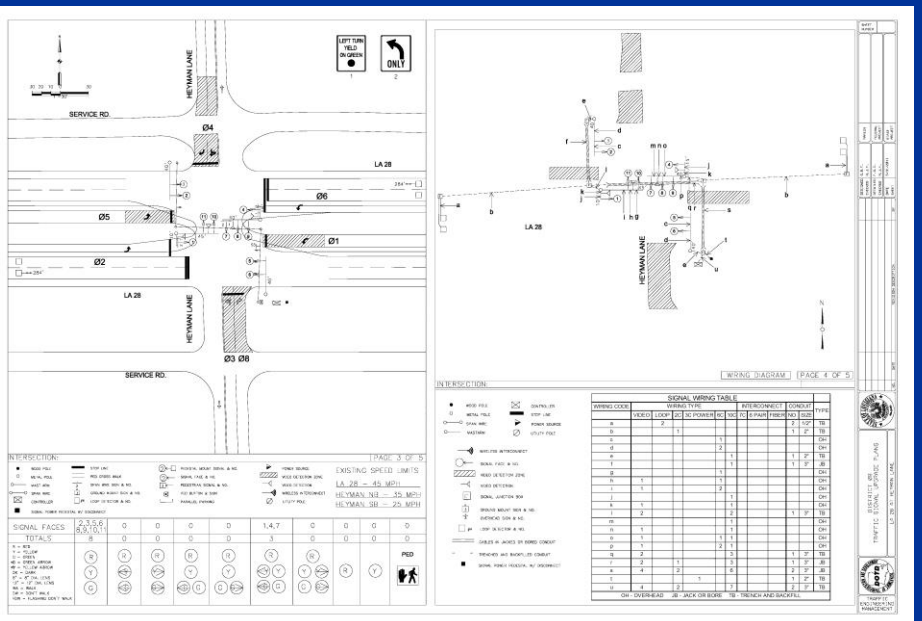
Note 1: MAX I SHALL OPERATE DURING FREE OPERATION FROM 22:00-06:00 S-S

Note 2: MAX II SHALL OPERATE DURING PLANS 1, 2 AND 3.

Note 3: CLEARANCES SHOWN ARE BASED ON AERIALS AND MUST BE RECALCULATED BY LADOTD WHEN LEFT TURN LANES ARE DESIGNED PRIOR TO IMPLEMENTATION.



Task 5.0 – Programming Controllers

- Recommended signal timing plans are programmed by either the NSI team or by LADOTD District personnel.
- Monitor signal timing plans in the field to verify operations. Make timing adjustments as necessary.
- Perform post travel time runs to compare to existing travel time runs.
- Provide updated TSI forms for all intersections once all adjustments have been completed and field verified.
