# **Cancelled Projects and Addendum**

## **PROJECTS TO BE CANCELLED**

Listed below are projects in the Aviation Priority Program for the Fiscal Years indicated. These projects are either idle or outdated, and their scopes of work are no longer valid. Therefore, we recommend approval of the sponsor's request to withdraw the following projects from the Aviation Priority Program:

### **Fiscal Year 2013-2014 Funded List**

#### ***General Aviation***

- 03GA Shreveport Downtown - Mitigate Obstructions; \$50,000
- 28GA Delhi - Obstruction Removal; \$55,000
- 42GA Springhill - Rehabilitate Airfield Pavement - Phase I (Design); \$3,000

### **Fiscal Year 2014-2015 Funded List**

#### ***General Aviation***

- 13GA St. Landry Parish-Ahart Field – Obstruction Removal Runway 18 Approach; \$15,525
- 17GA Slidell Airport – Runway Pavement Rehabilitation; \$49,500
- 41GA St. Landry Parish-Ahart Field – Security Fence-North; \$6,345

#### ***Air Carrier***

- 03AC Shreveport Regional – WHA Mitigation Drainage Project; \$55,556
- 07AC Shreveport Regional – Airfield Lighting Rehab – Phase II; \$1,200,000

### **Fiscal Year 2015-2016 Funded List**

#### ***General Aviation***

- 49GA David G Joyce - Apron Rehabilitation - Phase I (Design); \$3,000
- 53GA Red River Parish - Construct Perimeter Fence - Design Only; \$4,500

General Aviation Cancelled Projects: \$186,870

Air Carrier Cancelled Projects: \$1,255,556

**Total Cancelled Projects: \$1,442,426**

**Additional Comments to the Airport Construction and Development Priority Program**  
**Funded 2016-2017,**  
**Unfunded Program 2017-2018, and Unfunded Program 2018-2021.**

The actual project cost, on a project by project basis, may be below or above the estimate. However, the total amount approved for the Airport Construction and Development Priority Program, for fiscal year 2016-2017, will not be exceeded.

In accordance with Act 451, 1989 regular Session, paragraph 803 (B), which states "...if governing authority of an airport authority, district, parish or of any local unit of government obtains ninety percent or more funding for an airport, or for an airport project, from federal sources or from sources other than state funds, the legislature shall give priority to funding the remaining amount necessary for the airport or for the airport project, even if the project is not on the priority list of projects." The legislature does further authorize LA DOTD to provide matching funds for any project during the Fiscal Year 2016-2017, which does not specifically appear on the list of projects developed in compliance with the Louisiana Airport Construction and Development Priority Program, but which has received a commitment of ninety percent or more funding.

The available funds will be distributed in the following order:

- 1) Projects in the FY 2016-2017 Airport Construction and Development Priority Program are funded directly from the Transportation Trust Fund that is allocated in FY 2016-2017 to the Airport Construction and Development Priority Program.
- 2) Any other project or eligible enhancements to previously approved projects which receives 90% funding from any source, other than another State source, but which has not been processed and prioritized and is not in either the FY 2016-2017 funded or the FY 2017-2018 and 2018-2021 unfunded portion of the Airport Construction and Development Priority Program.
- 3) The General Aviation and Reliever Airports Maintenance Grant Program shall be funded in accordance with the conditions specified in Chapter 8 of Title 2 of the Louisiana Revised Statutes.
- 4) In the event that additional funds become available, through special appropriations, underruns, project cancellations, or otherwise, certain unfunded, state only projects required for safety or infrastructure preservation at airports not eligible for Federal Aviation Administration (FAA) Airport Improvement Program (AIP) funding may be moved from the Unfunded FY 2017-2018 or Unfunded FY 2018-2021 Airport Construction and Development Priority Program to the FY 2016-2017 Airport Construction and Development Priority Program (funded list).
- 5) Aviation Trust Funds will not be used as a match for projects funded with Passenger Facility Charges (PFC) as PFCs can be approved by the FAA at 100% of the project cost.

# Glossary

## **GLOSSARY**

**AC** (Air Carrier): Airports or aircraft providing service to fare paying passengers

**Apron:** Parking area for aircraft

**ALP:** Airport Layout Plan

**ARFF** (Aircraft Rescue & Firefighting): Trucks and equipment for fighting aircraft fires

**ATC** (Air Traffic Control): A service operated by appropriate authority to promote the safe, orderly, and expeditious flow of air traffic.

**ATCT** (Air Traffic Control Tower): Air traffic control facility located on airport responsible for controlling local airport traffic.

**ASOS** (Automated Surface Observation System): Automated system that transmits weather data to aircraft

**AWOS** (Automated Weather Observation System): Automated system that transmits weather data to aircraft

**Blast Pad:** Concrete extension at the end of a runway to prevent erosion caused by jet blast

**CAT** (Category): Category of instrument landing system based on visibility requirements.

**Construct:** Build a new system

**DME** (Distance Measuring Equipment): A transponder-based radio navigation technology that measures distance by timing the propagation delay of radio signals

**DNL** (Average Day/Night Noise Level): Noise levels measured in the vicinity of an airport

**EA:** Environmental Assessment

**EDS** (Explosive Detection System): Electronic equipment for screening luggage

**EMAS** (Engineered Mechanical Arresting System): An area at the end of a runway paved with special, soft concrete to stop aircraft in an emergency

**FBO** (Fixed Base Operator): A commercial operator of aviation services on an airport that provides fuel, maintenance, aircraft rental, etc.

**GA** (General Aviation): All aviation except air carriers and military

**GIS:** Geographic Information Systems

**GLS** (GNSS Landing System)

**GNSS** (Global Navigation Satellite System)

**Grooving:** Longitudinal grooves cut into runways to promote drainage and prevent hydroplaning

**Holding Bay:** Paved pull-off area for temporary aircraft parking near the runway end

**ILS (Instrument Landing System):** Ground based instrument approach system that provides precision guidance to an aircraft approaching and landing on a runway.

**Incursion Device:** Detects aircraft or vehicles that go onto a runway without approval

**Joints:** Space between concrete slabs

**LLWAS:** Low Level Wind shear Alert System

**LNAV:** Lateral navigation instrument approach procedure

**LNAV/VNAV:** Lateral Navigation/Vertical Navigation instrument approach procedure

**Localizer:** The component of an instrument landing system that provides course guidance to the runway centerline.

**LOI:** (Letter of Intent) The FAA's intent to obligate AIP discretionary and entitlement funds from future budgetary authority in an amount not greater than the Federal Government's share of allowable costs for that project.

**LPV:** Localizer performance with vertical guidance instrument approach procedure

**MALSR (Medium Intensity Approach Lighting System with Runway Alignment Indicator Lights):** Lighting system used to align landing aircraft with the runway

**Marking:** Numbers, letters, and symbols painted on runways and taxiways

**Master Plan:** A plan for airport growth during a 20-25 year period

**MIRL (Medium Intensity Runway Lights):** Lights that mark the edge of a runway

**MITL (Medium Intensity Taxiway Lights):** Lights that mark the edge of a taxiway

**Noise Compatibility:** FAA program to assist homeowners near airports

**Obstruction Removal:** A planned program to remove obstructions (trees, buildings, ditches, etc) from an RPZ or safety areas

**Overlay:** A layer of asphalt placed on top of an existing asphalt surface

**Overrun:** Area beyond the end of a runway used for aircraft unable to stop on the runway

**PAPI (Precision Approach Path Indicator):** A visual landing aid that provides landing information by the use of colored lights

**Parallel Taxiway:** A taxiway paralleling a runway

**Passenger Loading Bridge:** Enclosed movable hallway connecting a passenger aircraft to the terminal

**PCI:** Pavement Condition Index

**PCC:** Portland Concrete Cement

**RAIL** (Runway Alignment Indicator Lights): Sequence flashing lights used as part of an approach lighting system

**Ramp:** Parking area for aircraft

**Reconstruct:** Rebuild an existing system

**Rehabilitate:** Major repairs to an existing system

**REIL** (Runway End Identifier Lights): Flashing lights that identify the runway end

**Rejuvenator:** An additive that replaces lost oils in asphalt

**RPZ** (Runway Protection Zone): Area which must be free of vertical obstacles

**Runway:** A strip of concrete, asphalt, or turf used for the landing and takeoff of aircraft

**Safety Area:** Land immediately adjacent to runways and taxiways

**Sealcoat:** Protective surface applied to asphalt pavements (sometimes called a slurry seal)

**Seaway:** Landing area for seaplanes or amphibious airplanes

**Segmented Circle:** A system of visual indicators designed to provide traffic pattern information to aircraft

**Sound Mitigation:** FAA program to assist homeowners near airports

**SSALR** (Simplified Short Approach Light System with RAIL): Lighting system used to align landing aircraft with the runway

**Striping:** White or yellow lines painted on runways and taxiways

**Stub Taxiway:** Small taxiway connecting a runway to a parallel taxiway, apron or ramp

**Taxilane:** Small taxiway leading to hangars

**Taxiway:** Strip of concrete, asphalt, or turf used to move aircraft to and from the runway

**Terminal:** Building used by pilots and passengers for creature comfort and flight planning. Also adjacent aircraft parking

**T-hangar:** Hangars shaped like a "T" designed for storing airplanes tail to tail

**Tie Down:** A ring set in an apron for anchoring small aircraft

**UAS:** Unmanned Aerial Systems

**UHF** (Ultra High Frequency): Radio signals primarily used by military aircraft

**Vault:** Building that houses electrical equipment for an airport

**WHA:** Wildlife Hazard Assessment

**Wind Cone:** Device for detecting and displaying wind direction (also called wind sock)

**Wind Tee:** Device for detecting and displaying wind direction
