# Cancelled Projects and Addendum

# Projects Recommended for Cancellation

Listed below are projects in the Airport Construction and Development Priority Program for the Fiscal Years indicated. These prioritized projects which have been approved for state funding but which, for lack of federal matching funds or other reasons, do not have an executed sponsor-state agreement within one fiscal year, beginning July 1 of the fiscal year in which the project was approved by the legislature, shall be canceled from the funded program and placed back on the unfunded prioritized list of projects. The project may then compete for funding in subsequent years. Funds which had been approved for a canceled project will be reallocated to any other prioritized project the legislature has approved as needed.

# ***Program Addendum for FY 2022-2023 Airport Construction and Development Priority Program***

---

The actual project cost, on a project by project basis, may be below or above the estimate. The total amount approved for the Airport Construction and Development Priority Program (hereinafter referred to as the Program), for fiscal year 2022-2023 approved by the Louisiana Legislature, will

***In accordance with ACT 451, 1989 Regular Session, Louisiana Revised Statutes 2:803(B) states, "...if governing authority of an airport authority, district, parish or of any local unit of government obtains ninety percent or more funding for an airport, or for an airport project, from federal sources or from sources other than state funds, the legislature shall give priority to funding the remaining amount necessary for the airport or for the airport project, even if the project is not on the priority list of projects."***

With the passage of the FAA Appropriation and the Bipartisan Infrastructure Legislation (BIL), additional federal funding may be available for governing authorities of airports that are in the National Plan of Integrated Airport Systems (NPIAS). State funding may be required to ensure the match to additional federal funding through this program. The availability of funds will be determined by the Department and distributed in accordance with the following as approved by the Louisiana Legislature:

- 1) Any other project or eligible enhancements to projects which receive 90% funding from any federal source.
- 2) Any other project or eligible enhancements to projects which receive 90% funding from any source, other than state funds.
- 3) In the event that the Air Carrier Bipartisan Infrastructure Law Discretionary Federal Match are unused at the end of the Fiscal Year, the Air Carrier Maintenance Reimbursement Program may be funded up to but not to exceed \$100,000 per Air Carrier Airport.
- 4) In the event that additional funds become available through underruns, project cancellations, or unplanned appropriations, projects required for safety or infrastructure preservations at airports may be moved from the unfunded portion of the Program to the funded list.
- 5) Aviation Appropriations in the Transportation Trust Fund (TTF) shall not be used as a match for projects with Passenger Facility Charges (PFC) as PFCs can be applied for and approved by the FAA at 100% of the project cost.
