

# APPLICATION FOR PARTICIPATION

**The Louisiana Department of Transportation and Development invites interested organizations to apply to participate as members of the Louisiana Complete Streets Advisory Council (LCSAC).**

Complete Streets are roads that are designed and operated for the safety and comfort of all users, regardless of age or ability. The Louisiana Department of Transportation and Development seeks to identify a board composition that balances professional expertise, personal experience and geographic reach across the state. To this end, DOTD will make every effort to encourage diversity and participation from underserved populations and areas of the state. To ensure that members can easily participate, meetings will be made available via video conference and accommodations will be provided for anyone needing special assistance due to a disability. The number of seats on the LCSAC is limited and individuals selected are expected to attend three quarterly meetings each year to maintain their appointments, which will be reviewed annually.
